Dear Iowa State University Graduates and Guests:

Congratulations to all of the Fall 2016 graduates of Iowa State University!

We are very proud of you for the successful completion of your academic programs, and we are pleased to present you with a degree from Iowa State University recognizing this outstanding achievement. We also congratulate and thank everyone who has played a role in the graduates’ successful journey through this university, and we are delighted that many of you are here for this ceremony to share in their recognition and celebration.

We have enjoyed having you as students at Iowa State, and we thank you for the many ways you have contributed to our university and community. I wish you the very best as you embark on the next part of your life, and I encourage you to continue your association with Iowa State as part of our worldwide alumni family.

Iowa State University is now in its 158th year as one of the nation’s outstanding land-grant universities. We are very proud of the role this university has played in preparing the future leaders of our state, nation, and world, and in meeting the needs of our society through excellence in education, research, and outreach. As you graduate today, you are now a part of this great tradition, and we look forward to the many contributions you will make.

I hope you enjoy today’s commencement ceremony. We wish you all continued success!

Sincerely,

Steven Leath
President of the University

The Official University Mace

The Iowa State University mace symbolizes the authority of the university president. The Chief Faculty Marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the commencement ceremony.

In medieval times, the mace was a studded, clublike weapon, made of iron. It was capable of breaking armor, and was associated with the protection of kings in France and England.

In the 13th century, it was used for civil purposes and processions. Eventually it became a symbol for academic institutions, an emblem of order and authority in the pageantry.

Created in bronze, silver and tiger maple, the Iowa State University mace incorporates important campus icons such as the campanile located on central campus and the Fountain of Four Seasons, located on the north side of the Memorial Union and features likenesses of four Native American women. The sculptures were created in 1941 by Christian Petersen, sculptor-in-residence from 1934-1955.

The mace's bronze headpiece is an interpretation of the campanile. It includes a silver presidential seal and reflects in a disc representative of the Fountain of the Four Seasons. The words “Iowa State University – Science With Practice” are inscribed on the edge of the disc. Under the disc is a shortened version or reflection of the campanile headpiece.

The tiger maple staff bears 14 bronze plaques inscribed with the names of all previous Iowa State presidents, their years of service, and a laurel leaf symbolizing the attainment of graduation.

At the staff’s base is an unfolding bronze leaf symbolizing the beginning of a new era for graduating students. The overall height of the University mace is 60 inches, and it weighs 14 pounds.

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania designed and crafted the Iowa State University mace.

Private funds from the ISU Alumni Association's Circle of Former Presidents, Chairs, and Executive Directors, the Stanton Carillon Foundation, and the University Museums made the design and purchase of the Iowa State University mace possible.

The Presidential Chain of Office

The presidential chain of office symbolizes the rich history and traditions of Iowa State University and is worn by the president at all commencement ceremonies.

It was first worn by President Gregory Geoffroy during the Spring 2008 commencement ceremonies to mark the end of Iowa State University's year-long sesquicentennial celebration.

Created by sculptor Jeanne L. Stevens-Sollman—the same artist who created Iowa State's mace—the presidential chain of office complements the mace. The two pieces were commissioned by University Museums and the ISU Alumni Association and are part of University Museums’ Art on Campus collection.

The front of the presidential chain of office features an image of the campanile, and Beardshear Hall's east portico (the campus home of the president) is on the back. The shoulder epaulets are the columns of Beardshear and contain the words Leadership and Service. The campanile links in the presidential chain of office contain the words Engagement, Learning, Discovery, and Access. The reverse sides of the bronze sections have low bas-reliefs of corn. Most pieces in the necklace are bronze. The seal in the center of the campanile and the links in the necklace are sterling silver.

Both the presidential chain of office and the mace are housed in the alumni center and are used at each commencement ceremony.

Academic Regalia

In May 2008, as part of its sesquicentennial celebration, Iowa State University debuted custom-designed doctorate regalia.

The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and university tradition, adorns the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

The ceremony as well as the academic costume at commencement symbolize the record of academic achievement of the various individuals taking part in commencement exercises.

Academic gowns have been part of the university experience since the twelfth century and the advent of the first European universities. Because these early schools were connected to great cathedrals, like those at Bologna and Chartres, the black gown of the schoolmasters, or scholastics, emulated the somber dignity of the clergy and signified a life devoted to learning. In addition, the ample materials of the gown served to keep the scholars warm in the drafty environment of the medieval university. Hoods were also functional, while colors were reserved for masters (or teachers) rather than bachelors (or students). Initially, the colors indicated one's discipline, such as the green of nature for a degree in medicine.

Mortarboards, with black or gold tassels, and school colors came later; but the clerical formality of the academic gown continues to represent the dedication and nobility of the scholar's vocation.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The Code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline. The color of the commencement gown varies in other countries. In America, black is typically the color of choice for bachelor's and master's degrees.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books as suggested in the old poem, “The Ballad of the Cap,” first published in 1564. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

- Agriculture and Life Sciences – Maize
- Business – Nugget
- Design – Brown
- Engineering – Orange
- Human Sciences – Maroon
- Liberal Arts and Sciences
  - Bachelor of Arts – White
  - Bachelor of Liberal Studies – White
  - Bachelor of Music – Pink
  - Bachelor of Science – Golden Yellow
- Veterinary Medicine – Gray

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by doctorate degree recipients. Exceptions are made for honorary degree recipients and other officials of the ceremony. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline. For example, dark blue represents Philosophy and all hoods used in conferring the Doctor of Philosophy degree at Iowa State University are of dark blue edging.
HOODING CEREMONY, DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base.

Those who receive doctorates have demonstrated that they are truly experts in their fields whose research has already contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title “Doctor of Philosophy.”

During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

ACADEMIC TITLES

The following provides a brief description for the academic titles that appear in this program followed by a list of symbols for each title. Where appropriate, a symbol will be displayed behind the person's name.

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

An endowed chair or professorship provides special recognition to the faculty member to whom the title is awarded. It is held for a specific term, and during that time, endowment earnings are used by the university to supplement departmental support of the faculty member's scholarship and responsibilities in teaching, research, outreach, and service. These chairholders specialize in areas of study identified by the donors who created the endowments.

- ‡ Distinguished Professor
- ‡‡ University Professor
- † Endowed Chair
- †† Endowed Professorship
Special Recognition, Advanced Degrees

Candidates for graduation for the Master’s or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

§ Research Excellence Award
†† Teaching Excellence Award

Special Recognition, Undergraduate Degrees

Candidates for undergraduate degrees may be recognized for graduating “With Distinction” and/or graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally; however, the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees. Each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade point average of 3.90 or higher; magna cum laude (with great distinction) have a grade point average of 3.70 to 3.89; or cum laude (with distinction) have a grade point average 3.50 to 3.69. Grade point averages are based on a 4.0 scale. In addition to the notation in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear a cord and/or medallion and be noted in this program as follows:

* * * Summa Cum Laude - with highest distinction (cardinal and gold cord)
* * Magna Cum Laude - with great distinction (gold cord)
* Cum Laude - with distinction (cardinal cord)
† Honors Program (medallion)

Additional Recognition, Undergraduate Degrees

The George Washington Carver Scholarship and Academy is designed for high achieving multicultural students and supports their growth and academic success through specialized curricula and programming. The George Washington Carver Outstanding Achievement Award is granted to those scholars who have demonstrated involvement in a combination of activities such as outstanding community service and successful internships and who are graduating with a 3.5 grade point average or better. These scholars are wearing green stoles.

Iowa State University’s Cardinal Key Honor Society, formed in 1926, recognizes students who have achieved the cardinal virtues of leadership, service, scholarship, and character in the university community. Undergraduates must be of junior or senior standing, have earned a minimum cumulative grade point average of 3.0 and be in the top 15% of their academic class. Membership is limited to no more than ½ of 1% of the senior class, and 1/3 of 1% of the junior class. These students are wearing two red cords intertwined with a single gold cord.
Iowa State University Traditions

The first swans on Lake LaVerne, Lancelot and Elaine, were a gift from the 1935 VEISHEA Central Committee. From that day on, there has been a pair of swans on Lake LaVerne.

When Iowa State’s young football team beat Northwestern University 36 to 0 in 1895, an article in the Chicago Tribune said, “Northwestern might as well have tried to play football with an Iowa cyclone as with the Iowa team it met yesterday.” Thus, the “Cyclones” were born. Cy the Cardinal became Iowa State’s mascot in 1954.

It is said if you step on the bronze zodiac relief on the floor of the Memorial Union’s Gold Star Hall, you will flunk your next test.

In 2003, Iowa State revived a 60-year-old tradition: the Official ISU Ring. Students and alumni worked with the ISU Alumni Association and University Book Store to design a ring that symbolically captures the uniqueness of Iowa State. Rings may only be worn by alumni or by students who have achieved junior or senior status. Rings are officially presented at an annual ring ceremony.

The tradition of “campaniling” states that a student officially becomes an Iowa Stater when he or she is kissed under the university’s campanile at the stroke of midnight.

Iowa State University Points of Pride

The world’s first electronic digital computer was developed at Iowa State University by math and physics professor John V. Atanasoff and engineering graduate student Clifford Berry in the late 1930’s. Their invention, the ABC computer, has been called the most important technological innovation of the 20th century.

Iowa State’s faculty includes a Nobel Prize winner in chemistry and members of the National Academy of Engineering and the National Academy of Sciences.

Iowa State’s faculty members are recognized for their scholarly efforts. They serve as editors and on editorial and advisory boards of national and international academic professional journals.

Iowa State is a member of the prestigious Association of American Universities that has a membership of only 62 major research universities in the United States and Canada.

Iowa State is one of the top three U.S. universities in the development of patentable biotechnology.

Iowa State students have a reputation for winning national and international awards. They win contests for apparel design, NASA food technology, news writing for print and broadcast, computer software, vocal music, music composition, and many more.

With more than 100 majors, 1700 faculty and 800 clubs and organizations, Iowa State has built a reputation for almost unlimited academic and social opportunities in a personal and welcoming environment.

Every state and more than 100 countries are represented in Iowa State’s student body. Iowa State’s 600 works of art on campus make its public art collection the largest of any university in the nation.

**Adam Feenstra**  
Major: Chemistry, Teaching Excellence and Research Excellence

Adam is a Ph.D. candidate in Analytical Chemistry. He prepared a dissertation titled: *Technological Development of High Performance MALDI Mass Spectrometry Imaging for the Study of Metabolic Biology*. The document describes analytical techniques Adam developed based on laser-desorption ionization mass spectrometry. He demonstrated that these new tools allow us to visualize how hundreds of metabolic compounds are distributed in animal and plant tissues, such as germinating seeds and roots of maize. The research advances our ability to study metabolic biology at cellular and subcellular level high-spatial resolution.

During a period of slightly over four years as a doctoral student, Adam demonstrated excellence in coursework, and, with his colleagues, published five research papers in highly respected scientific journals. Adam’s scholarly accomplishments were the basis for a Research Excellence Award. In addition, he received the Sleight Graduate Fellowship and a Teaching Excellence Award in recognition of his outstanding performance in instruction.

Escort: Young-Jin Lee, Associate Professor of Chemistry

**Rebecca Clay**  
Major: Agronomy and Global Resource Systems, Magna Cum Laude

During her years at Iowa State, Rebecca:

- Was one of only 10 college students in the nation selected as a Cargill Global Scholar;
- Served as the Student Organic Farm President;
- Co-directed the 2014 International Association of Agriculture Student World Congress; and
- Worked on food security projects in Uganda, Ghana, Ecuador, Guatemala, and Iowa.

She plans to focus her career in soils, agroecology, and food systems by working in extension, research, and education. After graduation, Rebecca will serve with the Peace Corps in Nepal as a food security volunteer.

Escort: Mary Wiedenhoeft, Professor of Agronomy

**COLLEGE OF BUSINESS**

**Yuliya Ivanytska**  
Major: Finance, Summa Cum Laude

Yuliya is graduating with a bachelor of science in finance – a degree she completed in only two-and-a-half years with an impressive 4.0 GPA.

Yuliya is escorted by Associate Professor of Finance, Ginka Borisova, a professor Yuliya admires for teaching her the fundamentals of finance. Ginka says she has been truly impressed and inspired by Yuliya’s demonstrated skill and enthusiasm.

Following graduation, Yuliya plans to travel abroad before seeking a position in investment banking or private equity in New York City. She looks forward to a career that impacts the financial world and continues the adventure she started here at Iowa State University.

Yuliya would like to thank her friends for developing connections of a lifetime that made classes more fun. She would also like to thank her family for their constant support and endless patience.

Escort: Ginka Borisova, Associate Professor of Finance

**COLLEGE OF DESIGN**

**Laurelin Haas**  
Majors: Science in Community & Regional Planning and Environmental Studies, Summa Cum Laude

Laurelin is a George Washington Carver Scholar and a member of the University Honors Program. She received the national David L. Boren Scholarship for a full year of study abroad in China. She was recognized with the 2014 Department of World Languages and Cultures Distinguished Achievement in Chinese Award, the 2015 American Institute of Certified Planners Outstanding Undergraduate of the Year Award; and the Fall 2016 George Washington Carver Outstanding Achievement Award.

Laurelin completed internships with the Joint U.S.-China Cooperation on Clean Energy, the Davenport Community Planning and Economic Development Department, Prairie Rivers of Iowa, and ISU Office of Sustainability’s Live Green! Initiative.

As Laurelin’s honors project adviser, her faculty escort, Mônica Haddad, helped her put the skills she learned in the classroom into practice through an independent research project she presented at events in Des Moines and Burlington.

In March, Laurelin will embark on a new adventure as a Peace Corps urban and regional planning volunteer in Albania.

Catherine Krezowski
Major: Civil Engineering, Cum Laude

Catherine is graduating with majors in civil engineering and global resource systems.

Catherine was active in the International Student Council, VEISHEA Service Day, and the Society of International Engineers. She served as a teaching assistant for civil engineering and was a peer mentor for undeclared engineering students.

Catherine was on the Dean’s List eight semesters, inducted into Tau Beta Pi and Chi Epsilon, and she participated in the University Honors Program. She has researched the use of corn stover to produce bioenergy and investigated the feasibility of removing ammonia from wastewater treatment plants.

Catherine completed internships at the Center for Inter-American Studies in Ecuador, Braun Intertec, and Flint Hills Resources of Koch Industries. She will continue with Koch Industries after graduation.

Escort: Beth Hartmann, Senior Lecturer in Civil, Construction, and Environmental Engineering

College of Liberal Arts and Sciences

Bilal Baig
Major: Genetics, Summa Cum Laude

Bilal is from Clive, Iowa. He has earned his genetics degree in only seven semesters. He is graduating summa laude with a GPA of 3.9.

Along with exceptional academic achievement, Bilal demonstrates a true passion for service. While at Iowa State, he volunteered with Free Clinics of Iowa as an EMT and he also volunteered as a teacher, tutor, and mentor for youth and refugees. Additionally, he served as a peer mentor for the BOLD Learning Community for multicultural students.

Bilal will serve as a healthcare intern with the U.S. Committee for Refugees and Immigrants this spring before entering medical school next fall.

Escort: John Nanson, Professor of Ecology, Evolution, and Organismal Biology

College of Human Sciences

Megan Doubleday
Major: Elementary Education, Summa Cum Laude

Megan, who is from Mount Ayr, Iowa, epitomizes the college motto of “expanding human potential.”

She has shown outstanding leadership, a commitment to service, and dedication to excellence. As President of the Iowa State University Education Association, Megan was a strong advocate for the education profession.

Megan’s academic achievements earned her induction into numerous honor societies including Golden Key, Phi Kappa Phi, and Phi Theta Kappa. Her heart for children led her to serve as a lifeguard, a tutor, and a nanny.

Megan is graduating summa cum laude with a bachelor’s degree in elementary education, as well as teaching endorsements in reading and social studies, and coaching endorsements. Megan is seeking a full-time elementary school teaching position after graduation.

Escort: Anne Estapa, Assistant Professor in the School of Education
Senator Joni Ernst has dedicated her life to Iowa and her country, having served in the military for over 23 years and now in the United States Senate.

In November 2014, Sen. Ernst was elected as the first woman to serve in federal elected office from the State of Iowa and also became the first female combat veteran elected to serve in the United States Senate. In Washington, Sen. Ernst serves on four Senate committees of major importance to Iowans: Armed Services; Agriculture, Nutrition and Forestry; Homeland Security and Governmental Affairs; and Small Business and Entrepreneurship.

Sen. Ernst is focused on growing a vibrant economy and ensuring the government runs effectively and efficiently which means cutting out-of-control spending, reducing taxes, eliminating harmful regulations and balancing the budget.

Born and raised on a farm in Montgomery County, Sen. Ernst's parents instilled in her the values important to Iowans: hard work, service and sacrifice. As a mother, soldier and independent voice, Sen. Ernst is committed to bringing these values to Washington, D.C.

Sen. Ernst received her undergraduate degree from Iowa State University where she joined the university's ROTC program. After graduating, she joined the U.S. Army Reserves. In 2003, Sen. Ernst served as a company commander in Kuwait and Iraq, leading 150 Iowa Army National Guardsmen during Operation Iraqi Freedom. She retired as a Lieutenant Colonel in the Iowa Army National Guard after 23 years of military service.

Known for her independent leadership and commitment to public service, Sen. Ernst previously served as the Montgomery County Auditor where she worked to eliminate wasteful government spending and protect taxpayers' hard-earned dollars. As a state senator, she fought to balance the state budget and helped turn Iowa's $900 million budget deficit into a $1 billion surplus. In addition to her work to balance the budget, Sen. Ernst worked tirelessly to grow jobs and the economy, cut taxes, improve education, and reduce the role of government in Iowans' lives.

Sen. Ernst resides in Red Oak, Iowa, with her husband Gail and their daughter Libby.
Simon Estes is an internationally acclaimed bass-baritone who has performed in the world's major opera houses and in special performances for U.S. presidents and international dignitaries such as Boris Yeltsin, Yassar Arafat, Yitzhak Rabin, Nelson Mandela, and Archbishop Desmond Tutu. Since 2000, he has been a faculty member at Iowa State University, serving as the F. Wendell Miller Distinguished Artist-in-Residence with the Department of Music and Theatre, sharing his incredible talents and musical knowledge with students and at numerous activities and events.

Estes rose from humble beginnings in Centerville, Iowa, the son of a coal miner and grandson of a slave, to become one of the world's most accomplished opera singers, paving the way for other African Americans in the classical world. He transferred from Centerville Junior College to the University of Iowa in 1957 and was there until he was accepted in the Juilliard School of Music in 1963. Estes has honorary doctorates from numerous colleges and universities, including one from Iowa State University.

In 1965 Estes made his operatic debut in Aida at the Deutsche Opera in Berlin. Among his more than 100 lead operatic roles have been the title role in The Flying Dutchman at Bayreuth, being the first male African American to sing a major role on stage there; the role of Porgy in the Metropolitan Opera’s first production of Gershwin’s Porgy and Bess; and the role of Amonasro in Aida with Leontyne Price as Aida in her “farewell performance” at the Met.

Estes is also internationally known for his humanitarian efforts for children. He established the Simon Estes Educational Foundation, which has awarded more than three million dollars in merit-based college scholarships, and the Simon Estes International Foundation for Children, which provides support for children's health and educational needs. In 2006, he led a group of six Iowa State music faculty members to South Africa to bring music instruction to the students of the Estes school in the Cape Town area. He has performed numerous benefit concerts to help combat HIV/AIDS and eliminate malaria in Africa.

Estes has taught at the Juilliard School of Music, Harvard University, Boston University, and currently is a professor at Iowa State University and at Wartburg College. Among his many awards are the Distinguished Iowa Citizen Award, the Iowan Award, and the prestigious Alumni Award of Iowa State University.

Iowa State University Senior Class Council

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2016-2017 Senior Class Council is comprised of 10 students who are dedicated to recognizing seniors for their many achievements.

This year’s Senior Class Council has planned a number of programs for seniors including both Fall and Spring Senior Weeks, where seniors enjoy special tours and free food on campus; the Senior Package, a gift set that included commemorative Iowa State items; Grad Breakfast, a chance for seniors to relax and enjoy a meal served by ISU faculty and staff; Real Life Answers, a conference for seniors to prepare them for life after graduation, and the Senior Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors’ transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

Finally, Senior Class Council always invites you and your families to return to the Iowa State Alumni Center following the Commencement Ceremony today as you are all now Alumni of Iowa State University!

For more information on SCC and SALC programs, please visit www.isusalc.org.

To learn more about the Iowa State University Alumni Association, go to www.isualum.org.

2016-2017 Senior Class Council Leadership

President: Janelle Gibney
Vice-President: James McConnell

Council Members: Rachel Dalton, Trey Forsyth, Cameron Jodlowski, Ethan Lindley, Eric Manges, Tim McKeague

David Salmon, Thomas Woodruff

Candidates for Commissions

The following students have been, or will be, commissioned in the branch of service indicated:

United States Army

Benjamin G. Brixius
Danielle M. Hadaway (Summer 2016)
Anna E. Hopkins
Sean M. Howard (Summer 2016)
Daniel D. Saladin
John J. Sheppard (Summer 2016)

United States Marine Corps

Jared P. Chappelear

United States Navy

Nickolaus E. Fichter
Lisa J. Freeman
Quincy S. Lamp
Jack W. Randall
Summer 2016

CANDIDATES FOR DEGREES FROM THE GRADUATE COLLEGE

DOCTOR OF PHILOSOPHY

Mani Kumar Badvela  
West Des Moines, Iowa  
B.Tech. Acharya N.G. Ranga Agricultural University  
M.S. National Dairy Research Institute  
M.S. Illinois Institute of Technology  
Department: Animal Science  
Major: Meat Science  
Dissertation: Efficacy of buffered propionic acid against Salmonella Typhimurium in ground pork stored at 4°C and 10°C and inhibition of Listeria monocytogenes by buffered dry vinegar in ready-to-eat uncured turkey stored at 4°C

†† Mohammad Mehdi Bagherzadeh  
Tehran, Iran  
B.S. Iran University of Science and Technology  
M.S. Iowa State University  
Department: Computer Science  
Major: Computer Science  
Dissertation: Toward a concurrent programming model with modular reasoning

Zachary Robert Batchelder  
Las Vegas, Nev.  
B.S. Iowa State University  
M.S. Iowa State University  
Department: Psychology  
Major: Psychology (Counseling Psychology)  
Dissertation: Toward comprehension: Improving informed consent in behavioral genetic research

Jeremy Scott Bennett  
Altoona, Iowa  
B.S. Iowa State University  
M.S. Iowa State University  
Departments: Mechanical Engineering and Electrical and Computer Engineering  
Majors: Human Computer Interaction and Computer Engineering  
Dissertation: Massive model visualization: A practical solution

††§ Zhanar Berikkyzy  
Kazakhstan  
Math. Sulayman Demirel University  
M.A. University of Northern Iowa  
Department: Mathematics  
Major: Mathematics  
Dissertation: The edit distance function: Forbidding induced powers of cycles and other questions

Jeremy David Brue  
Buffalo Center, Iowa  
B.S. Dordt College  
M.S. Iowa State University  
Department: Agricultural and Biosystems Engineering  
Major: Agricultural and Biosystems Engineering  
Dissertation: Implementation of lean operation controls for a corn stover biomass feedstock supply chain

Caleb Michael Carlin  
Green Bay, Wis.  
B.S. Michigan Technological University  
Department: Chemistry  
Major: Physical Chemistry  
Dissertation: Finding the spark: Predicting hypergolicity in ionic liquids

††§ Adam Thomas Case  
New Vineyard, Maine  
B.A. University of Maine-Farmington  
Department: Computer Science  
Major: Computer Science  
Dissertation: Mutual dimension, data processing inequalities, and randomness

Linlin Chai  
Dalian, China  
B.Econ. Dongbei University of Finance & Economics  
M.S. New York University  
M.S. Michigan State University  
Department: Business Administration  
Major: Business and Technology (Marketing)  
Dissertation: Synergy among business processes: The construct, drivers, consequences and managerial implications

§ Bokan Chen  
Qidong, China  
B.E. Huazhong University of Science and Technology  
M.S. Iowa State University  
Department: Industrial and Manufacturing Systems Engineering  
Major: Industrial Engineering  
Dissertation: Applications of optimization under uncertainty methods on power system planning problems

B.E. Shandong University
M.Eng. University of Science and Technology of China
Department: Electrical and Computer Engineering
Major: Computer Engineering
Dissertation: Augmented UAS navigation in GPS denied terrain environments using synthetic vision

Wei Wang  Kaohsiung City, Taiwan
B.S. Wenzao Ursuline College of Languages
M.S. Iowa State University
School: Education
Majors: Education (Curriculum and Instructional Technology) and Human Computer Interaction
Dissertation: Development of Technological Pedagogical Content Knowledge (TPACK) in PreK-6 teacher preparation programs
Xinying Wang  Chengdu, China
B.E. University of Electronic Science and Technology of China
B.E. University of Electronic Science and Technology of China
Department: Electrical and Computer Engineering
Major: Computer Engineering
Dissertation: Using reconfigurable computing technology to accelerate matrix decomposition and applications

Umayangani Kumari Wanninayake  Peradeniya, Sri Lanka
Sp.Bach. University of Peradeniya
Department: Chemistry
Major: Organic Chemistry
Dissertation: Understanding the reactivity of triacetic acid lactone

Muneaki Watanabe  Ichikawa, Japan
B.E. Nihon University
B.S. Iowa State University
Department: Biochemistry, Biophysics and Molecular Biology
Major: Biochemistry
Dissertation: Role of non-catalytic ligands in macromolecule function

Andrew Ryan White  Cary, N.C.
B.S. North Carolina State University-Raleigh
M.S. Iowa State University
Department: Aerospace Engineering
Major: Engineering Mechanics
Dissertation: Theory and experiments on flows containing surfactant-laden drops using experimentally determined surfactant transport parameters

Gang Wu  Beijing, China
B.E. Beijing Normal University
M.S. University of Southern California
Department: Electrical and Computer Engineering
Major: Computer Engineering
Dissertation: Physical design algorithms for asynchronous circuits

Jun Xiang  Thunder Bay, Canada
B.E. Huazhong University of Science and Technology
Department: Economics
Major: Economics
Dissertation: Three essays on an event-driven investment strategy: Dividend adjustments, share repurchases, and market timing

Qi Xu  Shanghai, China
B.Med. Shanghai Second Medical University
M.S. Iowa State University
Department: Food Science and Human Nutrition
Majors: Toxicology and Nutritional Sciences
Dissertation: Neuroprotective effects of epigallocatechin gallate in cell culture and animal models of Parkinson's disease

Yuhang Xu  Wuhu, China
B.S. East China University Science & Technology
M.S. East China Normal University
Department: Statistics
Major: Statistics
Dissertation: Selected topics in measurement error and functional data analysis

Mengguo Yan  Beijing, China
B.S. East China University Science & Technology
M.S. East China University Science & Technology
Department: Chemical and Biological Engineering
Major: Chemical Engineering
Dissertation: Structure architecture and property relation of hyperbranched polymer produced from triglyceride via RAFT polymerization

Euijung Yang  Seoul, South Korea
B.S. Soongsil University
M.Engr. Soongsil University
Department: Industrial and Manufacturing Systems Engineering
Major: Industrial Engineering
Dissertation: Mitigating user frustration through adaptive feedback based on human-automation etiquette strategies

Xiaochen Yang  Shandong, China
B.S. Shandong Agricultural University
Department: Genetics Development and Cell Biology
Major: Plant Biology
Dissertation: Analysis of the induction of autophagy during ER stress and the vesicle fusion machinery at the trans-Golgi network in Arabidopsis thaliana

Yueran Yang  Beijing, China
B.S. Beijing University
M.S. Iowa State University
Departments: Psychology and Statistics
Majors: Psychology and Statistics
Dissertation: To deny or to confess: An interrogation decision-making model

Alexandra Brownstein  Sherman Oaks, Calif.
B.S. University of California-Los Angeles
Department: Animal Science
Major: Genetics
Thesis: The effects of heat stress on mitochondrial function and autophagy in skeletal muscle

Ruth Helen Burke  Osseo, Minn.
B.S. University of Minnesota-Minneapolis
Department: Agronomy
Major: Crop Production and Physiology
Thesis: Quantifying senescence-mediated nutrient loss processes in switchgrass (Panicum virgatum L.) biomass

Andrew Michael Callaghan  Erie, Pa.
B.S. Towson University
Department: Business Administration
Major: Interdisciplinary Graduate Studies

Allison Anne Cargill  West Chester, Ohio
B.S. Purdue University
Department: Mechanical Engineering
Major: Mechanical Engineering
Thesis: Development of an enzymatic glucose biosensor for applications in wearable sweat-based sensing

Lawrence Thomas Caudle  Pine Bluff, Ark.
B.S. University of Arkansas at Pine Bluff
Department: Agricultural Education and Studies
Major: Agricultural Education

Miguel Israel Chavez Santoscoy  Tijuana, Mexico
B.S. Institute of Tecnolog de Estudios Superiores de Monterrey
Department: Chemical and Biological Engineering
Major: Chemical Engineering
Thesis: Bacteriophages on paper for the colorimetric detection of Escherichia coli in lake water

Yuncong Chen  Ames, Iowa
B.S. Iowa State University
Department: Electrical and Computer Engineering
Major: Electrical Engineering
Thesis: Microfluidic devices for droplet sorting, on-line sensing, and microwinery

Yu-Jo Cheng  Taipei, Taiwan
B.A. Soochow University
Department: Apparel, Events, and Hospitality Management
Major: Apparel, Merchandising, and Design

Tyler James Chenhall  Coralville, Iowa
B.S. Iowa State University
Department: Mathematics
Major: Mathematics
Thesis: On the Doi-Onsager model of rigid rod-like polymers

Aswin Chidambaram Pappa  Chennai, India
B.E. Anna University
Department: Electrical and Computer Engineering
Major: Computer Engineering
Thesis: Moving target defense for securing smart grid communications: Architectural design, implementation and evaluation

Sanghoon Cho  Seoul, South Korea
B.A. Handong Global University
B.A. Handong Global University
M.S. Seoul National University
Department: Statistics
Major: Statistics

Clark Andrew Colby III  Urbandale, Iowa
B.Arch. Iowa State University

Thesis: Place-bo-burbi-agri-culture to place-iveianure - methods for place making: Increasing value with representation

Jonah Nelson Cullen  Madison, Wis.
B.S. University of Wisconsin-Madison
M.S. University of Iowa
Department: Veterinary Diagnostic and Production Animal Medicine
Major: Veterinary Preventive Medicine
Thesis: An examination of epidemiological study designs in veterinary science

Ethan Matthew Dahlhauser  Whittemore, Iowa
B.S. Iowa State University
Department: Agronomy
Major: Soil Science (Soil Morphology and Genesis)
Thesis: Pedogenesis of outwash derived soils on terraces of the Des Moines River

Pranava Dammanagari Gangadhara  Hyderabad, India
B.E. Osmania University
Department: Supply Chain and Information Systems
Major: Information Systems

Amber Marie Danielson  Humboldt, Iowa
B.S. Iowa State University

Thesis: An engineered U1 snRNP redefines SMN1 exon 7 carrying a pathogenic mutation at the splice donor site

†† Prachi Deepak Deshpande  
Pune, India
B.E. University of Pune
Department: Mechanical Engineering
Major: Mechanical Engineering
Thesis: Understanding energy transfer in aeroelastic flutter and exploiting free-play induced flutter for energy harvesting

Katherine Meade DeSimone  
Fort Wayne, Ind.
B.S. Brown University
Department: Kinesiology
Major: Kinesiology
Thesis: Biomechanical analysis of the transition from cycling to running for triathletes

Mouhamadou A. Diallo  
Dakar, Senegal
B.S. Iowa State University
Department: Electrical and Computer Engineering
Majors: Information Assurance and Computer Engineering

Elizabeth Christine Dippold  
Belle Mead, N.J.
B.S. Iowa State University
B.A. Iowa State University
Department: Economics
Major: Economics

Kevin Davey Duncan  
Andover, Mass.
B.S. George Washington University
Department: Economics
Major: Economics
Thesis: The impacts of taxes on firm entry rates along state borders

Colten Wayne Fales  
Merna, Neb.
B.S. Iowa State University
Department: Industrial and Manufacturing Systems Engineering
Major: Industrial Engineering
Thesis: Are we done yet?: A study of the effects of defined goals and progressive feedback on task performance and perceptions

Jialue Fang  
Changsha, China
B.S. Iowa State University
Department: Electrical and Computer Engineering
Major: Computer Engineering
Thesis: Hiding traffic patterns in VoIP communication

Llewin Hugh Froome  
Negril, Jamaica
B.S. University of Massachusetts-Boston
Department: Agronomy
Major: Soil Science (Soil Chemistry)
Thesis: Organic matter in Holocene paleosols in the US Mid-Continent

Leandro Ariel Fuentes Ramos Mejia, Argentina
Ingr. Universidad Tecnologica Nacional
Department: Electrical and Computer Engineering
Major: Electrical Engineering
Thesis: Analysis and design of two-device sensors with high-gain feedback enforced matching and linear digital output

Jingyao Gai  
Hefei, China
B.E. University of Science & Technology of China
Department: Agricultural and Biosystems Engineering
Major: Agricultural and Biosystems Engineering
Thesis: Plants detection, localization and discrimination using 3C machine vision for robotic intra-row weed control

†† Matthew Daniel Goiffon  
Cedar Rapids, Iowa
B.S. Iowa State University
Department: Industrial and Manufacturing Systems Engineering

Laharish Guntuka  
Karimnagar, India
B.Tech. Maulana Azad National Institute of Technology
Department: Supply Chain and Information Systems
Major: Information Systems

Nicholas John Haberl  
Moville, Iowa
B.S. Iowa State University
Department: Mechanical Engineering
Major: Mechanical Engineering
Thesis: An investigative analysis of an advanced trim and respond control strategy for variable air volume HVAC systems

Piriya Kristofer Hall  
Hastings, Neb.
B.S. Iowa State University
Department: Electrical and Computer Engineering
Major: Computer Engineering
Thesis: Adaptation of a GPU simulator for modern architectures

Brandon J. Hallmark  
Ankeny, Iowa
B.S. Iowa State University
School: Journalism and Mass Communication
Major: Journalism and Mass Communication
Thesis: Science writers: How they keep up

KristiLee E. Halpin  
Durhamville, N.Y.
B.S. State University of New York College at Oswego
Department: Ecology, Evolution and Organismal Biology
Major: Environmental Science
Thesis: The effect of seed mix additions on emergent community composition with implications for Iowa CREP wetland restorations

Zhi Han  
Xi’an, China
B.Engr. Xi’an University of Posts and Telecommunications
Department: Electrical and Computer Engineering
Major: Electrical Engineering
Thesis: Tunable external cavity ring laser with wavelength selective elements

Matthew E. Heims  
Dyersville, Iowa
B.S. Iowa State University
Department: Agronomy
Major: Seed Technology and Business

Paul Robert Hibbing  
Ames, Iowa
B.S. Iowa State University
Department: Kinesiology
Major: Kinesiology
Thesis: Estimation of physical activity intensity using triaxial ActiGraph accelerometers in youth populations: Impact of data type, attachment site, and modeling approach, including adaptations of the Sojourn method for varied use in youth

Kerry L. Holeman  
Omaha, Neb.
B.A. University of Iowa
Department: Industrial and Manufacturing Systems Engineering
Major: Human Computer Interaction

Cassie L. Holloway  
Darlington, Md.
B.S. Texas A & M University
Department: Animal Science
Major: Animal Science
Thesis: Impact of super-dosing phytase on growth performance, energy and nutrient utilization, and phytate breakdown

Eric Alden Hovda  
Cedar Rapids, Iowa
B.S. Iowa State University
Department: Biomedical Sciences
Major: Biomedical Sciences (Physiology)

Sisi Hu  
Wuhan, China
B.A. Jianghan University
School: Journalism and Mass Communication
Major: Journalism and Mass Communication
Thesis: Why cyberbullies choose cyberspace: From the perspective of uses and gratifications

Bowen Huang  
Shenyang, China
B.E. Zhejiang University
Department: Electrical and Computer Engineering
Major: Electrical Engineering
Thesis: Information transfer for characterizing conformation dynamics in network of coupled oscillators

Vihang Idnani  
Vadodara, India
B.E. Maharaja Sayajirao University of Baroda
Department: Apparel, Events, and Hospitality Management
Major: Apparel, Merchandising, and Design
Melissa Dawn Irizarry  
Spirit Lake, Iowa  
B.S. Iowa State University  
Department: Plant Pathology and Microbiology  
Major: Plant Pathology  
Thesis: Soybean vein necrosis virus: Impacts of infection on yield loss and seed quality and expansion of plant host range

Maryam Jamil  
Peshawar, Pakistan  
B.S. COMSATS Institute of Information Technology  
Department: Animal Science  
Major: Genetics  
Thesis: Characterization of a murine model of mucopolysaccharidosis type IIID: A knockout model

Xin Jiang  
Qingdao, China  
B.S. Iowa State University  
Department: Agricultural and Biosystems Engineering  
Major: Agricultural and Biosystems Engineering  
Thesis: Properties of feed ingredients and extrudated products

Jie Jing  
Taiyuan, China  
B.E. Hubei University  
Department: Materials Science and Engineering  
Major: Materials Science and Engineering  
Thesis: Synergistic internalization of pNIPAm modified particles by macrophages

Anna Liora Johnson  
Annapolis, Md.  
B.A. Yale University  
Departments: Sociology and Sustainable Agriculture  
Majors: Sustainable Agriculture and Sociology  
Thesis: Agricultural labor in Midwestern United States specialty cropping systems

Mark Jeffrey Johnson  
Ames, Iowa  
B.S. Iowa State University  
Department: Mechanical Engineering  
Major: Mechanical Engineering  
Thesis: Burst-mode laser particle image velocimetry with multil-time step processing for improved dynamic velocity range

Nemisha Khosa  
Navi Mumbai, India  
B.E. University of Pune  
Department: Supply Chain and Information Systems  
Major: Information Systems  
Thesis: How personality effects victim's response to cyberbullying

Ghassan Issa Kidess  
Amman, Jordan  
B.S. University of Jordan  
Department: Plant Pathology and Microbiology  
Major: Seed Technology and Business

Margaret Leigh Kline  
Oswego, Ill.  
B.S. Benedictine University  
Department: Genetics Development and Cell Biology  
Major: Molecular, Cellular and Developmental Biology  
Thesis: Fishing for answers: Isolating enteric neurons and identifying putative ENS mutants

Manasa Kondapalli  
Visakhapatnam, India  
B.Tech. Gitam University  
Department: Supply Chain and Information Systems  
Major: Information Systems

Reshma Kotamsetty  
Hyderabad, India  
B.Tech. Jawaharlal Nehru Technological University  
Department: Electrical and Computer Engineering  
Major: Computer Engineering  
Thesis: Adaptive latency-aware query processing in IoT networks

Sujatha Krishnaswamy  
Chennai, India  
B.Tech. Anna University  
Department: Electrical and Computer Engineering  
Major: Computer Engineering  
Thesis: Accessible remote testbed for cyber-physical systems security of the smart grid

Ahna Kara Denise Kruzic  
Albia, Iowa  
B.S. Iowa State University  
Department: Sociology  
Majors: Sustainable Agriculture and Sociology  
Thesis: An equitable alternative to conventional agriculture? Discourses of whiteness and color-blind racism in local foods systems
