Dear Iowa State University Graduates and Guests:

Welcome to Iowa State University’s Spring 2008 Commencement!

We congratulate all of the graduates and thank everyone who played a role in their successful journey through Iowa State. We have very much enjoyed your being a part of our university and community, and we wish you well as you embark on this next part of your life. We look forward to continuing our association with you as alumni of Iowa State, and we hope you will come back to visit the university often.

You are part of a historic commencement at Iowa State University. This commencement is one of the concluding events of our year-long 150th anniversary observance. The legislation establishing Iowa State University was signed into law on March 22, 1858, and throughout the past academic year, we have celebrated this very significant milestone with many activities, events and commemorations.

Many other university events, such as this commencement, have incorporated sesquicentennial themes. Your commencement program includes sesquicentennial and historical information about Iowa State, and the video board in Hilton Coliseum will feature a sesquicentennial slide show before the commencement ceremony begins.

I hope you enjoy commencement, and that you will continue to be connected with Iowa State University.

Sincerely,

[Signature]

Gregory L. Geoffroy
President of the University
Congratulations, graduate! More than 257,000 degrees have been awarded to graduates just like you since the Iowa Agricultural College and Model Farm was formed in 1858.

This 150th anniversary year celebrates you and those who have gone before you. Your ideas will change the way we live. Communicate. Calculate. Produce. It has been a pleasure to teach you.

You are embarking on your next adventure—the adventure of life. Your knowledge, your discoveries and your service will shape your community, your state, your world.

You and graduates before you have inspired us to be our very best for the past 150 years. And the next.

1858
On Sept. 11, the state legislature officially accepts the provisions of the Morrill Act, making Iowa the first state in the nation to do so. The land-grant system provides funding through the sale of public lands, for an educational system open to all.

1862
The Iowa Agricultural College and Model Farm is founded on March 22.

1868
Men and women students begin a preparatory class on Oct. 21, making Iowa State the first land-grant institution to be coeducational from the beginning.

1872
Twenty-six students graduate in the first class: 24 men and two women.

1879
The “School” of Veterinary Science is organized, the first state-funded veterinary college in the United States (although veterinary courses had been taught since the founding of the college).

1880
Carrie Chapman Catt graduates at the top of her class. During her school years, she establishes military drills for women students and is the first woman student to give an oration before a debating society. She becomes president of two national suffrage organizations and plays a key role in getting women the right to vote. She founds the League of Women Voters and is the first woman to give a commencement speech at Iowa State.

1894
George Washington Carver is the first African American to graduate from Iowa State College, from the “Course in Agriculture.” He is appointed to the ISU faculty as assistant botanist for the experiment station, and receives his M.S. from Iowa State in 1896. Later a world renowned scientist and professor at Tuskegee University, Carver experimented with creating products and foods from peanuts, sweet potatoes, soybeans and other plants.

1895
The football team earns the name “Cyclones” following a victory over Northwestern University.

1903
Perry G. Holden hosts a Farmers’ Institute at Hull, Iowa, considered to be the beginning of Extension. He later establishes and supports demonstration farms.

1922
The first VEISHEA celebration and campus open house is held May 11-12. Wallace McKee (class of 1922) is the first central committee chair and Frank D. Paine (professor of electrical engineering) chooses the name of the event, based on the first letters of Iowa State’s colleges: Veterinary Medicine, Engineering, Industrial Science, Home Economics, and Agriculture.

1923
Jack Trice is Iowa State’s first African American student-athlete, but is mortally injured during a football game against Minnesota. In a letter authored the night before the game, he writes “My thoughts just before the first real college game of my life. The honor of my race, family and self are at stake. Everyone is expecting me to do big things. I will!” In 1967, the football stadium is officially named in his honor.

1937
The largest Grant Wood murals in existence are installed in Parks Library’s Grant Wood Heritage Area. All the panels are oil on canvas and designed by famed Iowa regionalist artist Grant Wood (1892-1942) and executed by Iowa artists under the federal program providing work for unemployed artists during the Depression.

Iowa State physics professor, John V. Atanasoff, while attempting to develop a faster method of computation for his students, builds the Atanasoff-Berry Computer (ABC) with his graduate student, Clifford Berry. His use of a binary system of arithmetic, the separation of computer and memory functions, and regenerative drum memory are the foundation for today’s computers.

The Iowa State University of Science and Technology (ISU) is located in Ames, Iowa, and is one of the oldest universities in the United States. It was founded in 1858 as a land-grant college and has since grown into a comprehensive research university with a diverse range of academic programs and research initiatives. The university is committed to fostering a community that values diversity, inclusion, and excellence in all aspects of its operations. Today, Iowa State continues its long tradition of excellence in education, research, and service, offering students a world-class education and preparing them to become leaders in their fields. The university is proud to be a part of the vibrant community of Ames and to contribute to the economic and cultural prosperity of the region and beyond.

The Bells of Iowa State .................................................................................................................. Back of Program
The Iowa State University mace symbolizes the authority of the university president. The lead faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the commencement ceremony.

In medieval times, the mace was a studded, clublike weapon, made of iron. It was capable of breaking armor, and was associated with the protection of kings in France and England.

In the 13th century, it was used for civil purposes and processions. Eventually it became a symbol for academic institutions, an emblem of order and authority in the pageantry.

Created in bronze, silver and tiger maple, the Iowa State University mace incorporates important campus icons such as the campanile located on central campus and the Fountain of Four Seasons, located on the north side of the Memorial Union and features likenesses of four Native American women. The sculptures were created in 1941 by Christian Petersen, sculptor-in-residence from 1934-1955.

The mace's bronze headpiece is an interpretation of the campanile. It includes a silver presidential seal and reflects in a disc representative of the Fountain of the Four Seasons. The words "Iowa State University – Science With Practice" are inscribed on the edge of the disc. Under the disc is a shortened version or reflection of the campanile headpiece.

The tiger maple staff bears 14 bronze plaques inscribed with the names of all previous Iowa State presidents, their years of service, and a laurel leaf symbolizing the attainment of graduation.

At the staff's base is an unfolding bronze leaf symbolizing the beginning of a new era for graduating students. The overall height of the University mace is 60 inches, and it weighs 14 pounds.

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania designed and crafted the Iowa State University mace.

Private funds from the ISU Alumni Association's Circle of Former Presidents, Chairs, and Executive Directors, the Stanton Carillon Foundation, and the University Museums made the design and purchase of the Iowa State University mace possible.
The Ram's Head graced the column of the chapel in the building known as “Old Main,” one of the first buildings on the Iowa State campus. In 1900, part of Old Main was destroyed by a fire and the rest of the building burned in 1902.

Legend has it that while digging through the ruins, faculty members Edgar Stanton and O.H. Cessna, who were also members of the first graduating class in 1872, found the Ram’s Head. Stanton and Cessna retrieved it from the rubble and kept it as an emblem typifying the spirit of new education provided by Iowa State. After their death, it was presented to Arloe Paul, class of 1933, with instructions to guard it carefully for 25 years, then pass it on to the Century Class of 1958. The tradition continues as it is now passed on by the class presidents every 25 years. At the 2008 undergraduate ceremony Kevin Drury, class of 1983, will pass on the Ram’s Head to Jesse Truax, class of 2008.

Other Traditions: Swans, VEISHEA, Campaniling and More

• The first swans on Lake LaVerne, Lancelot and Elaine, were a gift from the 1935 VEISHEA Central Committee. From that day on, there has been a pair of swans on Lake LaVerne.

• When Iowa State’s young football team beat mighty Northwestern University 36 to 0 in 1895, and article in the Chicago Tribune said, “Northwestern might as well have tried to play football with an Iowa cyclone as with the Iowa team it met yesterday,” thus, the “Cyclones” were born. Cy the Cardinal became Iowa State’s mascot in 1954.

• VEISHEA, an all-university spring open house first organized in 1922, is among the nation’s largest university student-managed festivals. The festival got its name from the first letters of Iowa State’s first colleges: Veterinary Medicine, Engineering, Industrial Science, Home Economics, and Agriculture. Two of VEISHEA’s long-standing traditions are individual cherry pies and the musical production “Stars Over VEISHEA.”

• In 2003, Iowa State revived a 60-year-old tradition: the Official ISU Ring. Students and alumni worked with the ISU Alumni Association and University Book Store to design a ring that symbolically captures the uniqueness of Iowa State. Rings may only be worn by alumni or by students who have achieved junior or senior status. Rings are officially presented at an annual ring ceremony.

• It is said if you step on the bronze zodiac relief on the floor of the Memorial Union’s Gold Star Hall, you will flunk your next test. Fortunately the bad luck can be averted by throwing a coin into the Fountain of Four Seasons.

• The tradition of “campaniling” states that a student officially becomes an Iowa Stater when he or she is kissed under the university’s campanile at the stroke of midnight.

Information Provided by the Iowa State University Alumni Association
The Spring 2008 commencement ceremonies mark the occasion of the Sesquicentennial and the debut of the custom-designed Iowa State University doctorate regalia.

The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and University tradition, adorns each of the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

The ceremony as well as the academic costume at commencement symbolize the record of academic achievement of the various individuals taking part in commencement exercises. The use of academic costume reaches back to medieval times and the beginnings of the famed old universities of Europe and England. Gowns (long, full robes) and cloaks with hoods were common garb. The unheated buildings frequented by medieval scholars certainly were an important factor in the choice of clothing.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The Code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline. The color of the commencement gown varies in other countries. In America, black is typically the color of choice for bachelor's and master's degrees.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books as suggested in the old poem, "The Ballad of the Cap," first published in 1564. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

Agriculture and Life Sciences – Maize
Business – Drab
Design – Brown
Engineering – Orange
Human Sciences – Maroon
Liberal Arts and Sciences
   Bachelor of Arts – White
   Bachelor of Liberal Studies – White
   Bachelor of Music – Pink
   Bachelor of Science – Golden Yellow
Veterinary Medicine – Gray

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by doctorate degree recipients. Exceptions are made for honorary degree recipients and other officials of the ceremony. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline. For example, dark blue represents Philosophy and all hoods used in conferring the Doctor of Philosophy degree at Iowa State University are of dark blue edging.
Academic Titles

The following provides a brief description for the academic titles that appear in this program followed by a list of symbols for each title. Where appropriate, a symbol will be displayed behind the person's name.

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

An endowed chair or professorship provides special recognition to the faculty member to whom the title is awarded. It is held for a specific term, and during that time, endowment earnings are used by the university to supplement departmental support of the faculty member's scholarship and responsibilities in teaching, research, outreach, and service. These chairholders specialize in areas of study identified by the donors who created the endowments.

Special Recognition, Undergraduate Degrees

Candidates for undergraduate degrees may be recognized for graduating “With Distinction” or for graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally, however the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees and each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade-point average of 3.90 or higher; magna cum laude (with great distinction) have a grade-point average of 3.70 to 3.89; or cum laude (with distinction) have a grade-point average 3.50 to 3.69. Grade-point averages are based on a 4.0 scale. In addition to the notation in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum.

Students graduating with special recognition will wear cords and be noted in this program as follows:

* * * Summa Cum Laude - with highest distinction
          (cardinal and gold cords)
* * Magna Cum Laude - with great distinction
          (gold cords)
* Cum Laude - with distinction
          (cardinal cords)
† Honors Program
          (white cords)
**Hooding Ceremony, Doctor of Philosophy**

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base.

Those who receive doctorates have demonstrated that they are truly experts in their fields whose research has already contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title “Doctor of Philosophy.”

During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

---

**Special Recognition, Advanced Degrees**

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those who with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

Sedahlia Jasper Crase is a professor in the Department of Human Development and Family Studies at Iowa State University. She joined the Iowa State faculty in 1973 as an assistant professor, was named associate professor in 1977, and professor in 1982.

Dr. Crase is a native of Kentucky who received a bachelor's degree from Berea College, a Master's degree from the University of Kentucky, and the doctorate from Iowa State University. She was the first member of her family to attend high school.

Dr. Crase's research focuses broadly on various aspects of parenting and parent education, including parenting attitudes and behaviors. In addition to her many scholarly publications, she contributes regularly to more popular venues on parenting. She was a founding member of the Iowa Chapter of the National Committee for the Prevention of Child Abuse and Neglect.

Dr. Crase's participation in the North Central Regional Research Project as a young assistant professor was particularly valuable to her research and teaching, as it gave her a perspective on Iowa families she would not otherwise have received. The work involved traveling the state and collecting data on 120 families over a five-year period.

Dr. Crase has taught thousands of students. Her greatest professional pride and joy are the more than 75 graduate students she has mentored in her role as their major professor, and she continues to informally mentor many of them as they move through their own careers and family lives.

Dr. Crase has served in numerous leadership roles at Iowa State and in her profession. This past academic year, she has served as president of the ISU Faculty Senate. She also has served as president of the ISU Chapter of Phi Kappa Phi, president of the Iowa Council on Family Relations, and editor of Parenting Studies.

She and her husband, Ike, have two grown children. Kirsten is a doctoral candidate in American Studies at the University of Maryland, and Brandon is a third-year law student at Georgetown University Law Center. Dr. Crase points to parenting her children as her most fulfilling role and greatest accomplishment.

Gregory Scott Bennet
Ames
B.P.A., Embry-Riddle Aeronautical University;
M.B.A., Iowa State University;
M.A., Ibid.
Department: Agricultural and Biosystems Engineering
Major: Sustainable Agriculture
Dissertation: Identity preservation & traceability: the state of the art - from a grain perspective (status of agricultural quality systems / traceability / certification systems)

Romeu Luiz de Castro Bessa
Belo Horizonte, Brazil
B.F.A., Universidade Federal de Minas Gerais;
M.A., Illinois State University;
M.F.A., University of Illinois at Urbana-Champaign
Department: Architecture
Major: Human Computer Interaction
Dissertation: Situating digital tools through ubiquitous virtuality: Confluences of art, architecture, and activity in HCI

§††Markie Louise Christianson Blumer
Anchorage, Alaska
B.S., Northern Arizona University;
M.Ed., Ibid.;
M.A., University of Louisiana - Monroe
Department: Human Development and Family Studies
Major: Human Development and Family Studies (Marriage and Family Therapy)
Dissertation: Gay men’s experiences of Alaskan society in their coupled relationships

Sangwon Cha
Seoul, South Korea
B.Sc., Seoul National University;
M.Sc., Ibid.
Department: Chemistry
Major: Analytical Chemistry
Dissertation: Laser desorption/ionization mass spectrometry for direct profiling and imaging of small molecules from raw biological materials

Changhoon Choi
Sokcho, South Korea
B.Sc., Inha University;
M.Eng., Ibid.
Department: Chemical and Biological Engineering
Major: Chemical Engineering
Dissertation: Kinetic study of copper chemistry in chemical mechanical polishing (CMP) by an in-situ real time measurement technique

§ Michelle Cirillo
Warwick, N.Y.
B.S., State University of New York – Plattsburgh;
M.A.T., Northern Arizona University
Department: Curriculum and Instruction
Major: Education
Dissertation: On becoming a geometry teacher: A longitudinal case study of one teacher learning to teach proof

Tami Jo Cline
Alexandria, Va.
B.S., Colorado State University;
M.S., Boston University
Major: Foodservice and Lodging Management
Dissertation: Purchasing practices, barriers, and industry support in Child Nutrition Programs needed to meet wellness policy requirements

Helen Marie Colvin
Keokuk
B.S., Iowa State University;
M.B.A., Ibid.
Department: Logistics, Operations and Management Information Systems
Major: Human Computer Interaction
Dissertation: The acceptance of domestic technology: TAM as applied to a proposed classification scheme

† † Steven Michael Corns
Fort Madison
B.S., Iowa State University;
M.S., Ibid.
Major: Mechanical Engineering
Dissertation: The role of information flow in engineering optimization

Greg Davis
Newton
B.S., Iowa State University;
M.S., Ibid.
Department: Educational Leadership and Policy Studies
Major: Education (Educational Leadership)
Dissertation: The development and field test of the Education Technology Leadership Assessment survey

Thanda Dhliwayo
Harare, Zimbabwe
B.Sc.Ag., University of Zimbabwe;
M.Phil., Ibid.
Department: Agronomy
Major: Plant Breeding
Dissertation: Genetic mapping and analysis of traits related to improvement of popcorn
Ana Paula da Silva Dias  
Rio de Janeiro, Brazil  
Ag. Eng., University of Vícossa;  
M.S., Ibid.  
Major: Plant Pathology  
Dissertation: Epidemiological studies of shading effects on Asian soybean rust

† † Jennifer A. Diers  
Breda  
B.A., University of Northern Iowa;  
M.Ed., University of North Carolina at Charlotte  
Major: Human Development and Family Studies  
Dissertation: Faculty and student experiences with clickers: A qualitative exploration of engaging students in high-level thinking

Geng Ding  
Beijing, China  
B.S., Peking University  
Department: Biochemistry, Biophysics, and Molecular Biology  
Major: Molecular, Cellular and Developmental Biology  
Dissertation: Molecular, genetic, physiological and biochemical studies of 3-methylcrotonyl-CoA carboxylase and biotin carboxyl carrier protein-like proteins in Arabidopsis thaliana

Bernice Adabasu Dodor  
Whuti-Anloga, Ghana  
B.Sc., University of Ghana;  
M.S., Iowa State University  
Department: Family and Consumer Sciences Education and Studies  
Major: Family and Consumer Sciences Education  
Dissertation: The effects of individual attributes, health behaviors, and religion on adolescent obesity: A study of African American and Caucasian adolescents

Pamela Ann Duffy  
Humboldt  
B.S., Iowa State University;  
B.S., University of Pennsylvania;  
M.Educ., Iowa State University  
Department: Curriculum and Instruction  
Major: Education  
Dissertation: Holes in the health care safety net: An ethnographic study of a free medical clinic

Islam Hassan El-adaway  
Cairo, Egypt  
B.S., American University in Cairo;  
M.S., Ibid.  
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Construction Engineering and Management)  
Dissertation: Construction dispute mitigation through multi-agent based simulation and risk management modeling

§ Michael Todd Frederick  
Colorado Springs, Colo.  
B.S., Iowa State University;  
M.S., Ibid.  
Department: Electrical and Computer Engineering  
Major: Computer Engineering  
Dissertation: Beyond the arithmetic constraint: depth-optimal mapping of logic chains in reconfigurable fabrics

Philip Walter Gassman  
Ames  
B.S., Iowa State University;  
M.S., Ibid.  
Department: Agricultural and Biosystems Engineering  
Major: Environmental Science  
Dissertation: A simulation assessment of the Boone River watershed: baseline calibration/validation results and issues, and future research needs

Nathaniel Daum Ginder  
Ames  
B.S., Iowa State University;  
B.A., Ibid.  
Department: Biochemistry, Biophysics, and Molecular Biology  
Major: Biochemistry  
Dissertation: The structure and mechanism of SAICAR synthetase

‡ ‡ Supratim Giri  
Kolkata, India  
B.Sc., University of Calcutta;  
M.Sc., Indian Institute of Technology - Kanpur  
Major: Chemistry  
Dissertation: Mesoporous silica nanomaterials and magnetic nanoparticles based stimuli-responsive controlled-release delivery systems
Angela Renee Green  Greenville, Ky.  
B.S., University of Kentucky;  
M.S., Ibid.  
Department: Agricultural and Biosystems Engineering  
Major: Agricultural Engineering  
(Agricultural Structures and Environmental Systems)  
Dissertation: A systematic evaluation of laying hen housing for improved hen welfare

Lucia Gutierrez  Montevideo, Uruguay  
Ing.Ag., Universidad de la Republica  
Department: Agronomy  
Majors: Plant Breeding and Ecology and Evolutionary Biology  
Dissertation: Genetic diversity in cultivated and wild Hordeum species

Matthew Alan Halverson  Des Moines  
B.S., Iowa State University  
Major: Mathematics  
Dissertation: Asymptotic behavior of the solutions to a family of PDE’s arising from the chemotaxis equations of Keller and Segal

Joseph R. Hanson  Carlisle  
B.A., University of Northern Iowa;  
M.B.A., University of Nebraska - Omaha  
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: Application-based learning: How community college business students learn to apply knowledge to their professional employment

† † Renee Joy Hein  Wichita, Kans.  
B.S., Newman University  
Department: Chemistry  
Major: Analytical Chemistry  
Dissertation: LC-MS analysis of related peptides and anions in the positive mode

Keri L. Henderson  Grinnell  
B.A., Wartburg College;  
M.S., Iowa State University  
Department: Entomology  
Major: Toxicology  
Dissertation: Impact of veterinary antibiotics in the environment

Joseph Ralph Hermann  Waukee  
B.S., Iowa State University;  
M.S., Ibid.  
Department: Veterinary Microbiology and Preventive Medicine  
Major: Veterinary Microbiology  
Dissertation: Quantitative studies on airborne transmission of porcine reproductive and respiratory syndrome virus

Suckwon Hong  Seoul, South Korea  
B.Eng., Hankuk Aviation University;  
Major: Materials Science and Engineering  
Dissertation: Evaporation induced self-assembly of ordered structures from a capillary-held solution

Jennifer Catherine Hukett  Los Alamos, N. Mex.  
B.S., New Mexico Institute of Mines and Technology;  
M.S., Iowa State University  
Major: Statistics  
Dissertation: Synthetic data methods for disclosure limitation

LaRon Maurice Hughes  Arkadelphia, Ark.  
B.S., Arkansas State University;  
M.S., Iowa State University  
Department: Animal Science  
Major: Bioinformatics and Computational Biology  
Dissertation: Hypothesis building using the Animal Trait Ontology

Rinat Ibrayev  Oskemen, Kazakhstan  
B.S., University of Nebraska - Lincoln;  
M.S., Iowa State University  
Major: Computer Science  
Dissertation: Model-based recognition of curves and surfaces using tactile data

Jacquelyn Renée Jackson  Tuskegee, Ala.  
B.S., Tuskegee University;  
M.S., Ibid.  
Department: Plant Pathology  
Major: Genetics  
Dissertation: Characterization of barley yellow dwarf virus subgenomic RNAs

§ John Tristan Kevern  Milton, Wis.  
B.S., University of Wisconsin – Platteville;  
M.S., Iowa State University  
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Civil Engineering Materials)  
Dissertation: Advancements in pervious concrete technology

§ Research Excellence Award  
† † Teaching Excellence Award
Michael Francis Lawrence  
St. Louis, Mo.
B.S., University of Missouri - Columbia  
Department: Statistics  
Major: Bioinformatics and Computational Biology  
Dissertation: Interactive graphics, graphical user interfaces and software interfaces for the analysis of biological experimental data and networks

† † Carl Stephen Lebsack  
Laramie, Wyo.
B.S., Illinois Institute of Technology;  
M.S., Ibid.
Department: Electrical and Computer Engineering  
Major: Computer Engineering  
Dissertation: Performance analysis and optimization of the Java memory system

Jun-Youl Lee  
Yongin, South Korea
B.S., Korea University;  
M.E., Ibid.;  
M.S., Iowa State University  
Department: Industrial and Manufacturing Systems Engineering  
Major: Industrial Engineering  
Dissertation: A new approach of top-down induction of decision trees for knowledge discovery

Seung Suk Lee  
Seoul, South Korea
B.S., Oklahoma State University;  
M.S., Ibid.
Department: Foodservice and Lodging Management  
Major: Foodservice and Lodging Management  
Dissertation: Relationships among leadership empowerment, job satisfaction and employee loyalty in university dining student workers

Ling Li  
Zhangjiakou, China
B.E., Tianjin University;  
M.E., Ibid.
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Environmental Engineering)  
Dissertation: Production of a new wastewater treatment coagulant from fly ash with concomitant SO₂ removal from flue gas

Chih-Chen Liu  
Taipei, Taiwan
B.A., National Taiwan University;  
M.A., Ibid.
Major: Economics  
Dissertation: Three essays on contingent valuation method

Zhiping Liu  
Huichang, China
B.Sc., Nanchang University;  
M.Sc., East Chinese Normal University  
Department: Veterinary Microbiology and Preventive Medicine  
Major: Immunobiology  
Dissertation: Differential mucosal gene expression modulates the development of murine colitis

Stephanie D. Loveland  
Ames
B.S., Iowa State University;  
M.S., Ibid.
Department: Chemical and Biological Engineering  
Major: Chemical Engineering  
Dissertation: Advancing block-oriented modeling in process control

Gang Lu  
Hanzhong, China
B.E., Zhejiang University;  
M.E., Nanyang Technological University;  
M.S., Iowa State University  
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Civil Engineering Materials)  
Dissertation: Rheological studies on the flow behavior of two-phase solid-liquid materials

Patience Lamunu Opiyo Lueth  
Gulu, Uganda
B.Arch., Iowa State University;  
M.S., Ibid.
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: The architectural design studio as a learning environment: A qualitative exploration of architecture design student learning experiences in design studios from first- through fourth-year

§ Feng Mao  
Jiangshan, China
B.E., Xian University of Architecture and Technology;  
M.E., Central Research Institute;  
M.S., University of Connecticut  
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Environmental Engineering)  
Dissertation: Permeation of hydrocarbons through polyvinyl chloride (PVC) and polyethylene (PE) pipes and pipe gaskets
†† Brian Daniel Matheis  
Lynden, Wash.
B.S., Iowa State University;  
M.S., Ibid.  
Major: Aerospace Engineering  
Dissertation: Numerical investigation of roughness effects in aircraft icing calculations

§ Douglas Stinson McCorkle  
Winchester, Va.  
B.S., University of Nebraska – Lincoln;  
M.S., Iowa State University  
Major: Mechanical Engineering  
Dissertation: Establishing an advanced engineering framework for engineering decision making

Sandra L. McGee  
Des Moines  
B.S., Upper Iowa University;  
M.S.W., University of Iowa  
Department: Family and Consumer Sciences Education and Studies  
Major: Family and Consumer Sciences Education  
Dissertation: Their voices emerged: A grounded theory of learning resilience among African American women in the formal education environment

DeAnn Valerie Miller  
Underwood, N. Dak.  
B.S., North Dakota State University;  
M.S., Ibid.  
Department: Family and Consumer Sciences Education and Studies  
Major: Family and Consumer Sciences Education  
Dissertation: Queenbees and wannabees: The struggle for power through bullying in adolescent girls

§ Benny Edd Mote  
Happy, Tex.  
B.S., University of Nebraska - Lincoln  
Department: Animal Science  
Major: Genetics  
Dissertation: The use of genetic markers to improve sow productive life and genetic abnormalities

Nancy Lee Conzett Muecke  
Dubuque  
B.A., University of Northern Iowa;  
M.A., University of Wyoming;  
M.A., Ibid.  
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: Pre- and post-admission criteria as predictors of academic success in an associate degree nursing program

§†† Prasun Mukherjee  
Kolkata, India  
B.Sc., University of North Bengal;  
M.Sc., Indian Institute of Technology - Bombay  
Department: Chemistry  
Major: Physical Chemistry  
Dissertation: Ultrafast fluorescence spectroscopy used as a probe to explore excited state photophysics of biologically and environmentally relevant systems

Bosiljka Njegic  
Belgrade, Serbia  
Dipl., University of Belgrade  
Major: Chemistry  
Dissertation: Cooking up quantum chemistry

Nicholas Joseph Ouellette  
Des Moines  
B.A., University of Northern Iowa;  
M.A., Aurora University  
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: An equity analysis of the Iowa school funding model that addresses the instructional support program and the influence this program has on student achievement

§ Sonmez Pamuk  
Erzurum, Turkey  
Dipl., T.C. Gazi University;  
M.S., Iowa State University  
Department: Curriculum and Instruction  
Major: Education (Curriculum and Instructional Technology)  
Dissertation: Faculty technology mentoring: How graduate student mentors benefit from technology mentoring relationship

Judith Patch Pauley  
Indianola  
B.F.A., Manhattanville College;  
M.A., University of North Carolina – Chapel Hill  
Department: Curriculum and Instruction  
Major: Education  
Dissertation: A qualitative study of the ways middle school teachers made meaning of a professional development program on cultural competency

Hua Pei  
Hefei, China  
B.S., University of Science and Technology – China;  
Department: Physics and Astronomy  
Major: Nuclear Physics  
Dissertation: A study of jet energy loss in heavy-ion collisions at PHENIX-RHIC, via 2-particle and "2+1" correlations, and future upgrade

§ Research Excellence Award  
† † Teaching Excellence Award
Nguyen Quang Phan  
*Los Banos, Philippines*

B.S., University of the Philippines  
Department: Genetics, Development and Cell Biology  
Major: Genetics  
Dissertation: Functional characterization of Arabidopsis sorting nexin AtSNX2b

† Valentin Daniel Picasso  
*Montevideo, Uruguay*

Ing.Ag., University of the Republic  
Department: Agronomy  
Major: Sustainable Agriculture  
Dissertation: Diversity, productivity, and stability in perennial polycultures used for grain, forage, and biomass production

§†† Benjamin Douglas Prince  
*Bolingbrook, Ill.*

B.S., Illinois College  
Department: Chemistry  
Major: Physical Chemistry  
Dissertation: Development and application of a hybrid femtosecond/picosecond coherent Raman probe designed for study of excited state systems

§ Mohammad Ataur Rahman  
*Dhaka, Bangladesh*

B.Eng., Bangladesh University;  
M.E.Sc., University of Western Ontario  
Department: Civil, Construction and Environmental Engineering  
Major: Civil Engineering (Structural Engineering)  
Dissertation: Performance-based seismic analysis and design improvements of two precast concrete structural systems

Susan Jane Woody Rhoades  
*Ankeny*

B.A., University of Northern Iowa;  
M.S., Drake University  
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: An exploration of perceptions of Associate of Science in Nursing students related to transcultural nursing experiences

Amarjyoti Sandhu  
*Burlington*

B.Sc. Punjab Agricultural University;  
Department: Plant Pathology  
Major: Microbiology  
Dissertation: Phyllosphere-mediated bacterial degradation of airborne phenol

§ Curtis Wilmer Scherder  
*New Hartford, Mo.*

B.S., University of Missouri – Columbia;  
M.S., Iowa State University  
Department: Agronomy  
Major: Plant Breeding  
Dissertation: Agronomic performance, seed characteristics, and stability of soybean lines containing mid oleate content and molecular analysis for diversity in the *FAD2-1B* gene

Joel Dean Schmidt  
*Jackson, Wis.*

M.S., University of Wisconsin – La Crosse  
Department: Biochemistry, Biophysics, and Molecular Biology  
Major: Biochemistry  
Dissertation: Functional analysis of paralogous genes in acetyl coenzyme A metabolism

Gregory R. Schmitz  
*New Hartford*

B.A., Wartburg College;  
M.Educ., Iowa State University  
Department: Educational Leadership and Policy Studies  
Major: Education (Educational Leadership)  
Dissertation: Leadership preparation and career pathways of community college presidents

Darby Thompson Sewell  
*Moultrie, Ga.*

B.S., University of Georgia;  
Department: Family and Consumer Sciences Education and Studies  
Major: Family and Consumer Sciences Education  
Dissertation: Passion: A narrative journey to family and consumer sciences education

Weiwei Shu  
*Yongkang, China*

B.S., University of Science and Technology of China;  
Department: Electrical and Computer Engineering  
Major: Electrical Engineering  
Dissertation: Electromagnetic waves in double negative metamaterials and study on numerical resonances in the method of moments (MoM)

Adrian Silvescu  
*Bucharest, Romania*

Dipl., University of Bucharest;  
Major: Computer Science  
Dissertation: Structural induction: towards automatic ontology elicitation

§ Research Excellence Award
†† Teaching Excellence Award
Igor Ivan Slowing  
Guatemala City, Guatemala
Licenc., San Carlos University
Department: Chemistry
Major: Organic Chemistry
Dissertation: Mesoporous silica nanoparticles as vehicles for intracellular trafficking and controlled release

Jodi D. Smith  
Ames
B.S., South Dakota State University; D.V.M., Iowa State University
Department: Biomedical Sciences
Major: Veterinary Anatomy
Dissertation: The effects of abnormal prion protein accumulation on retinal morphology and function in sheep and cattle

Kun Song  
Nanchang, China
B.S., Dong Huo University; M.S., Ibid.
Department: Apparel, Educational Studies and Hospitality Management
Major: Textiles and Clothing
Dissertation: The influence of Chinese cultural values on consumer perceptions and behavioral intention towards an apparel mass customization website

Mary Clay Stensvold  
Sitka, Alaska
B.A., Central Washington University; M.S., Ibid.
Department: Ecology, Evolution and Organismal Biology
Major: Botany
Dissertation: A taxonomic and phylogeographic study of the Botrychium lunaria complex

Lisa Anne Hermann Stock  
Urbandale
B.S., Iowa State University; B.A., University of Iowa
Department: Educational Leadership and Policy Studies
Major: Education (Educational Leadership)
Dissertation: Exploring the development of information literacy concepts among community college students

Erin Linn Strait  
Mitchell, S. Dak.
B.S., Buena Vista University; D.V.M., Iowa State University
Department: Veterinary Microbiology and Preventive Medicine
Major: Immunobiology
Dissertation: Effect of genetic and proteomic variation in field isolates of Mycoplasma hyopneumoniae on virulence, diagnosis and prevention of disease in the pig

Alethea F. Stubbe  
George
B.A., Northwestern University; M.B.A., University of South Dakota - Vermillion
Department: Educational Leadership and Policy Studies
Major: Education (Educational Leadership)
Dissertation: The community college presidency in the new millennium: Gender differences in leadership preparation

Nicholas William Suck  
St. Paul, Minn.
B.S., University of Minnesota – Twin Cities; B.Ch.E., Ibid.
Department: Chemical and Biological Engineering
Major: Chemical Engineering
Dissertation: Molecular dynamics simulations of amphiphilic dendrimers

Daniel R. Sundblad  
Des Moines
B.A., Bethel College; M.S., Iowa State University
Major: Sociology
Dissertation: Community well-being, individual responsibility, and agricultural change: an analysis of Iowa communities

Joshua McDowell Thomas  
Arlington Heights, Ill.
B.A., Northwestern College; M.S., Iowa State University
Department: Kinesiology
Major: Kinesiology (Biological Basis of Physical Activity)
Dissertation: Factors affecting lower extremity loading during running

Chad William Timm  
Des Moines
B.A., Simpson College; M.A., Iowa State University
Department: Curriculum and Instruction
Major: Education
Dissertation: Circles of support: Towards a liberatory pedagogy for community education

María del Pilar Torres González  
Ponce, Puerto Rico
B.S., University of Puerto Rico
Department: Chemical and Biological Engineering
Major: Chemical Engineering
Dissertation: Novel amphiphilic polyanhydrides for vaccine delivery

§ Research Excellence Award
† † Teaching Excellence Award
Aditya Choudary Velivelli, *Hyderabad, India*
B.Eng., Osmania University;
M.S., University of Missouri - Rolla
Major: Mechanical Engineering
Dissertation: Development of a multiblock solver utilizing the lattice Boltzmann and traditional finite difference methods for fluid flow problems

Guoqing Wang, *Hengyang, China*
B.Eng., Nanjing University;
M.Eng., Nanjing University of Aerospace and Astronautics
Major: Aerospace Engineering
Dissertation: Thin water films driven by air through surface roughness

Shih-Yu Wang, *Cheng-Kong, Taiwan*
B.Sc., National Central University;
M.Sc., Ibid.;
M.S., Iowa State University
Department: Geological and Atmospheric Sciences
Major: Meteorology
Dissertation: Influences of midtropospheric perturbations on summer convective storms over the United States northern plains

Xing Wang, *Beijing, China*
B.Sc., Peking University;
M.Sc., Ibid.
Department: Biochemistry, Biophysics, and Molecular Biology
Major: Biochemistry
Dissertation: The locations and signaling of H-Ras on endosomes and plasma membrane

Zhongming Wang, *Tongxiang, China*
B.S., City University of Hong Kong
Department: Mathematics
Major: Applied Mathematics
Dissertation: Development of level set methods for computing the semiclassical limit of Schrödinger equations with potentials

Hadley Alexander Wickham, *Auckland, New Zealand*
B.H.B., University of Auckland;
B.Sc., Ibid.
Major: Statistics
Dissertation: Practical tools for exploring data and models

Emilie Susanna Noel Zehr, *Bondurant*
B.A., Wartburg College;
M.A., Southern Illinois University
Department: Biochemistry, Biophysics, and Molecular Biology
Major: Immunobiology
Dissertation: Relatedness of *Haemophilus parasuis* strains and their proteins’ possible roles as virulence factors

Li Zhang, *Pucheng, China*
B.Econ., Wuhan University;
M.A., Ibid.
Major: Economics
Dissertation: Three essays on agricultural risk and insurance

Li Zhang, *Tongxiang, China*
B.Eng., Tsinghua University;
M.S., University of Iowa
Major: Mechanical Engineering
Dissertation: Experimental and simulation study of demand controlled ventilation

Shu Zhang, *Xinjin, China*
B.Eng., Dalian Institute of Light Industry;
M.S., Iowa State University
Department: Biochemistry, Biophysics, and Molecular Biology
Major: Biochemistry
Dissertation: Genetic regulation of the healthfulness of beef fatty acid composition

Shengqiang Zhong, *Guangzhou, China*
B.Sc., Zhongshan University;
M.Sc., Ibid.
Department: Agronomy
Major: Genetics
Dissertation: Integrating QTL analysis into plant breeding practice using Bayesian statistics

Deborah Zorn, *Lincoln, Neb.*
B.A., Buena Vista University
Department: Chemistry
Major: Physical Chemistry
Dissertation: Modeling ionic liquids, diffusion on surfaces and catalysis: A graduate student looks high and low

Dr. W. Eugene Lloyd

Dr. W. Eugene Lloyd (‘49 DVM, ’70 PhD) has a connection with Iowa State University and the College of Veterinary Medicine that goes back nearly 60 years. That relationship has grown even stronger during the past 15 years for Gene and his wife, Linda, and they have become one of Iowa State’s most supportive couples.

Gene attended Iowa State after serving in the U.S. Navy from 1944 to 1946. After earning his DVM, he was in private veterinary practice until 1958, when he established VET-A-MIX/Lloyd Laboratories in Shenandoah, Iowa, near his hometown of Red Oak. Today, the company is Lloyd, Inc., which has become a highly successful developer and manufacturer of pharmaceutical and nutritional products for animals and humans, and has received the small business administration’s U.S. Exporter of the Year award. Gene is chairman and CEO, and Linda is the quality assurance assistant.

After starting the company, Gene attended graduate school at Iowa State part-time over the next several years, earning a PhD. He joined the faculty at Iowa State in 1974 as a professor of pathology and was in charge of veterinary toxicology. He remained in that position until 1984.

The Lloyds are the lead donors in the expansion and renovation of the veterinary teaching hospital, the largest facility project since the College of Veterinary Medicine facility was constructed in the mid-1970s. When completed, the facility will be named in the Lloyds’ honor. That gift is one of many they have provided to Iowa State and the College of Veterinary Medicine, as they also established the W. Eugene and Linda R. Lloyd Endowed Professorship in Veterinary Medicine and the Lloyd Fund for Veterinary Medicine.

Gene serves as an ISU Foundation Governor. The Lloyds are members of the Order of the Knoll President’s Circle and have served on two capital campaign committees. Gene has served on the ISU Research Foundation board and College of Veterinary Medicine Dean’s Advisory Committee. He received the Outstanding Service Award from the American Board of Veterinary Toxicology, was cited by the Iowa Farm Bureau in its 150th anniversary program, “Iowans Who Made a Difference,” and was cited as one of 28 leaders in Veterinary Medicine in the United States during the mid-20th century. He and Linda are active in several community organizations and have received numerous awards for their service.

The Lloyds now live in Ft. Myers, Florida. Gene has one son, Thomas, who with his wife, Carol, has two children, Max and Allison.

The color guard for commencement exercises is composed of representatives of the Joint Service Color Guard.
Michael M. Crow—educator, knowledge enterprise architect, and science and technology policy scholar—became the 16th president of Arizona State University on July 1, 2002.

Under his leadership, ASU has created several broad new interdisciplinary research initiatives and more than a dozen new interdisciplinary schools, and has embarked on a dramatic infrastructure expansion to create more than seven million square feet of new academic space.

A native of San Diego, Calif., Dr. Crow began his academic career at Iowa State University, receiving his bachelor's degree in political science and environmental studies in 1977.

He worked in the energy research and policy arena in Iowa and Illinois, focusing on developing programs that linked science, engineering and social science to the critical energy, technology and policy questions of the late 1970s and early 1980s.

He earned his Ph.D. in 1985 from the Maxwell School of Citizenship and Public Affairs, Syracuse University, and served on the faculties at the University of Kentucky and Columbia University before returning to Iowa State in 1985 as director of science policy and faculty member.

At Iowa State, Dr. Crow focused on developing new knowledge enterprises and technology transfer organizations. In six years at Iowa State, he guided the establishment of more than 15 new applied research centers and technology transfer organizational structures and mechanisms, leading to Iowa State's first institutional successes in science-driven economic diversification, including the Institute for Physical Research and Technology (IPRT) and Center for Crops Utilization Research (CCUR).

Dr. Crow re-joined Columbia University, where he rose to executive vice provost. As chief strategist of Columbia's research enterprise, he led technology and innovation transfer operations resulting in several successful initiatives and new interdisciplinary programs, including the Earth Institute and the Center for Science, Policy, and Outcomes (CSPO) in Washington, D.C., a think tank dedicated to linking science and technology to optimal social, economic, and environmental outcomes.

Dr. Crow has been a senior adviser to the U.S. Departments of State and Commerce on science and technology policy related to intelligence and national security. A Fellow of the National Academy of Public Administration and member of the Council on Foreign Relations, he is the author of books and articles relating to the analysis of research organizations, technology transfer, science and technology policy, and the theory and practice of public policy. In his more than 20 years as a faculty member and administrator, Dr. Crow has taught classes every academic year.

Dr. Crow is a native of San Diego, California, and is married to Dr. Sybil Francis. He has three children, Ryan, Brittany and Alana.

† Honors Program
The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2008 Senior Class Council is comprised of 11 students who are dedicated to recognizing seniors for their many achievements.

This year Senior Class Council planned number of programs for seniors including Success Beyond a Degree, a professional development conference; both Fall and Spring Senior Weeks, where seniors enjoyed special tours and free food on campus; and the Senior Package, a gift set that included a senior shirt and a commemorative Iowa State glass. The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

Each year, the graduating class selects a project to give back to the University. The graduating class of 2008 elected to support the stunning gateway project for Iowa State University. The class gift will support the preliminary design of the signage and identification project. Signs will be placed along the University Blvd and Lincoln Way roadways directing individuals to various destinations at Iowa State.

For more information on SCC and SALC programs, please visit www.isusalc.org.
