Dear Iowa State University Graduates and Guests:

Welcome to Iowa State University’s Spring 2010 Commencement!

We congratulate all of the graduates and thank everyone who played a role in their successful journey through Iowa State. We have very much enjoyed your being a part of our university and community, and we wish you well as you embark on this next part of your life. We look forward to continuing our association with you as alumni of Iowa State, and we hope you will come back to visit the university often.

Iowa State University is now in its 153rd year as one of the nation’s leading land-grant universities. We are very proud of the role this university has played in preparing the future leaders of our state, nation and world, and in meeting the needs of our society through excellence in education, research and outreach. As you graduate today, you are now a part of this great tradition and we look forward to the many contributions you will make.

I hope you enjoy today’s commencement ceremony, and that you will continue to be connected with Iowa State University.

Sincerely,

Gregory L. Geoffroy
President of the University

THE OFFICIAL UNIVERSITY MACE

The Iowa State University mace symbolizes the authority of the university president. The lead faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the commencement ceremony.

In medieval times, the mace was a studded, clublike weapon, made of iron. It was capable of breaking armor, and was associated with the protection of kings in France and England.

In the 13th century, it was used for civil purposes and processions. Eventually it became a symbol for academic institutions, an emblem of order and authority in the pageantry.

Created in bronze, silver and tiger maple, the Iowa State University mace incorporates important campus icons such as the campanile located on central campus and the Fountain of Four Seasons, located on the north side of the Memorial Union and features likenesses of four Native American women. The sculptures were created in 1941 by Christian Petersen, sculptor-in-residence from 1934-1955.

The mace’s bronze headpiece is an interpretation of the campanile. It includes a silver presidential seal and reflects in a disc representative of the Fountain of the Four Seasons. The words “Iowa State University – Science With Practice” are inscribed on the edge of the disc. Under the disc is a shortened version or reflection of the campanile headpiece.

The tiger maple staff bears 14 bronze plaques inscribed with the names of all previous Iowa State presidents, their years of service, and a laurel leaf symbolizing the attainment of graduation.

At the staff’s base is an unfolding bronze leaf symbolizing the beginning of a new era for graduating students. The overall height of the University mace is 60 inches, and it weighs 14 pounds.

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania designed and crafted the Iowa State University mace.

Private funds from the ISU Alumni Association's Circle of Former Presidents, Chairs, and Executive Directors, the Stanton Carillon Foundation, and the University Museums made the design and purchase of the Iowa State University mace possible.

THE PRESIDENTIAL CHAIN OF OFFICE

The presidential chain of office symbolizes the rich history and traditions of Iowa State University and is worn by the president at all commencement ceremonies.

It was first worn by President Gregory Geoffroy during the Spring 2008 commencement ceremonies to mark the end of Iowa State University's year-long sesquicentennial celebration.

Created by sculptor Jeanne Stevens-Sollman—the same artist who created Iowa State's mace—the presidential chain of office complements the mace. The two pieces were commissioned by University Museums and the ISU Alumni Association and are part of University Museums' Art on Campus collection.

The front of the presidential chain of office features an image of the campanile, and Beardshear Hall's east portico (the campus home of the president) is on the back. The shoulder epaulets are the columns of Beardshear and contain the words Leadership and Service. The campanile links in the presidential chain of office contain the words Engagement, Learning, Discovery and Access. The reverse sides of the bronze sections have low bas reliefs of corn. Most pieces in the necklace are bronze. The seal in the center of the campanile and the links in the necklace are sterling silver.

Both the presidential chain of office and the mace are housed in the alumni center and are used at each commencement ceremony.
In May 2008, as part of its sesquicentennial celebration, Iowa State University debuted custom-designed doctorate regalia.

The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and University tradition, adorns each of the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

The ceremony as well as the academic costume at commencement symbolize the record of academic achievement of the various individuals taking part in commencement exercises. The use of academic costume reaches back to medieval times and the beginnings of the famed old universities of Europe and England. Gowns (long, full robes) and cloaks with hoods were common garb. The unheated buildings frequented by medieval scholars certainly were an important factor in the choice of clothing.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The Code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline. The color of the commencement gown varies in other countries. In America, black is typically the color of choice for bachelor's and master's degrees.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books as suggested in the old poem, "The Ballad of the Cap," first published in 1564. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

- Agriculture and Life Sciences – Maize
- Business – Drab
- Design – Brown
- Engineering – Orange
- Human Sciences – Maroon
- Liberal Arts and Sciences
  - Bachelor of Arts – White
  - Bachelor of Liberal Studies – White
  - Bachelor of Music – Pink
  - Bachelor of Science – Golden Yellow
- Veterinary Medicine – Gray

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by doctorate degree recipients. Exceptions are made for honorary degree recipients and other officials of the ceremony. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline. For example, dark blue represents Philosophy and all hoods used in conferring the Doctor of Philosophy degree at Iowa State University are of dark blue edging.
Hooding Ceremony, Doctor of Philosophy

The Doctor of Philosophy is the university’s highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base.

Those who receive doctorates have demonstrated that they are truly experts in their fields whose research has already contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title “Doctor of Philosophy.”

During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

Special Recognition, Advanced Degrees

Candidates for graduation for the Master’s or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those who with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

§   Research Excellence Award
††    Teaching Excellence Award

Special Recognition, Undergraduate Degrees

Candidates for undergraduate degrees may be recognized for graduating “With Distinction” or for graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally, however the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees and each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade-point average of 3.90 or higher; magna cum laude (with great distinction) have a grade-point average of 3.70 to 3.89; or cum laude (with distinction) have a grade-point average 3.50 to 3.69. Grade-point averages are based on a 4.0 scale. In addition to the notation in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have a grade point average of at least 3.35 and have designed and completed an individualized program of study, including an independent Honors Research Project.

Students graduating with special recognition will wear cords and be noted in this program as follows:

* * * Summa Cum Laude - with highest distinction
(cardinal and gold cords)
* * Magna Cum Laude - with great distinction
(gold cords)
*   Cum Laude - with distinction
(cardinal cords)
†   Honors Program
(white cords)
Academic Titles

The following provides a brief description for the academic titles that appear in this program followed by a list of symbols for each title. Where appropriate, a symbol will be displayed behind the person's name.

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

An endowed chair or professorship provides special recognition to the faculty member to whom the title is awarded. It is held for a specific term, and during that time, endowment earnings are used by the university to supplement departmental support of the faculty member's scholarship and responsibilities in teaching, research, outreach, and service. These chairholders specialize in areas of study identified by the donors who created the endowments.

Iowa State University Traditions

Information Provided by the Iowa State University Alumni Association

The first swans on Lake LaVerne, Lancelot and Elaine, were a gift from the 1935 VEISHEA Central Committee. From that day on, there has been a pair of swans on Lake LaVerne.

When Iowa State's young football team beat mighty Northwestern University 36 to 0 in 1895, and article in the Chicago Tribune said, “Northwestern might as well have tried to play football with an Iowa cyclone as with the Iowa team it met yesterday.” Thus, the “Cyclones” were born. Cy the Cardinal became Iowa State's mascot in 1954.

VEISHEA, an all-university spring open house first organized in 1922, is among the nation's largest university student-managed festivals.

The festival got its name from the first letters of Iowa State's first colleges: Veterinary Medicine, Engineering, Industrial Science, Home Economics, and Agriculture. Two of VEISHEAs long-standing traditions are individual cherry pies and the musical production “Stars Over VEISHEA.”

In 2003, Iowa State revived a 60-year-old tradition: the Official ISU Ring. Students and alumni worked with the ISU Alumni Association and University Book Store to design a ring that symbolically captures the uniqueness of Iowa State. Rings may only be worn by alumni or by students who have achieved junior or senior status. Rings are officially presented at an annual ring ceremony.

The tradition of “campaniling” states that a student officially becomes an Iowa Stater when he or she is kissed under the university's campanile at the stroke of midnight.

It is said if you step on the bronze zodiac relief on the floor of the Memorial Union's Gold Star Hall, you will flunk your next test.

The Fountain of the Four Seasons by artist-in-residence, Christian Petersen (Danish-American, 1885-1961), is located in front of the Memorial Union and was a gift from the 1937 VEISHEA Committee. In 1942, Christian Petersen added four sculptures to represent the four seasons. The east sculpture represents spring with the planting of corn; south - summer, sheltering a young plant; west - fall, holding the harvest; and north - winter, nursing a child. Legend has it that good luck will come to you if you throw a coin in the fountain.

John H. Schuh is Distinguished Professor in the College of Human Sciences and interim chair of the Department of Educational Leadership and Policy Studies at Iowa State University. He joined the faculty in 1997, with previous administrative and faculty appointments at Wichita State University, Indiana University, Bloomington, and Arizona State University. He received his bachelor's degree from the University of Wisconsin, Oshkosh, and master's and Ph.D. degrees from Arizona State.

Schuh is the author, co-author, or editor of more than 235 publications, including 25 books and monographs, 70 book chapters, and 110 articles. Among his recent books are Assessment Methods for Student Affairs, One Size Does Not Fit All: Traditional and Innovative Models of Student Affairs Practice (with Kathleen Manning and Jillian Kinzie), and Student Success in College (with George D. Kuh, Jillian Kinzie and Elizabeth Whitt). He has been editor of the New Directions for Student Services Sourcebook Series since 1997, and he is book review editor of The Review of Higher Education. Schuh has made more than 260 presentations and speeches to campus-based, regional, national and international meetings.

Schuh has served on the governing boards of the American College Personnel Association, the National Association of Student Personnel Administrators (twice) and the Association of College and University Housing Officers (twice). He serves as a chair of institutional accreditation teams on behalf of the Higher Learning Commission of the North Central Association of Colleges and Schools, and currently he is president of the Iowa Academy of Education.

Schuh has received the Research Achievement Award from the Association for the Study of Higher Education, the Contribution to Knowledge Award from the American College Personnel Association, the Contribution to Research or Literature Award and the Robert H. Shaffer Award for Academic Excellence as a Graduate Faculty Member from the National Association of Student Personnel Administrators.

He received a Fulbright award to study higher education in Germany in 1994, and was named to the Fulbright Specialists Program in 2008. He has been engaged with institutions of higher education in Scotland, England, Germany, Syria, Ukraine, Ireland, Bulgaria and Hong Kong.

Department: Electrical and Computer Engineering  
Major: Electrical Engineering  
Thesis: Silica nanosphere textured back reflectors for increased absorption in thin film amorphous silicon solar cells

Lan Liu  
**Wuhan, China**
B.E., Wuhan University;  
M.E., Huazhong University of Science and Technology  
Department: Economics  
Major: Economics

Shu-er Liu  
**Carmel, Ind.**
B.A., National Taiwan University;  
M.S., Indiana University – Bloomington;  
B.S., Indiana University – Purdue University at Indianapolis  
Department: Electrical and Computer Engineering  
Major: Information Assurance

Siyuan Liu  
**Changsha, China**
B.S., Huazhong Agricultural University  
Department: Veterinary Diagnostic and Production Animal Medicine  
Major: Genetics  
Thesis: Development of confirmatory testing strategies for suspect false PRRS-positive reactors in diagnostic serology

Zhengjia Liu  
**Hangzhou, China**
B.Law., Shanghai Maritime University  
Department: Journalism and Mass Communication  
Major: Journalism and Mass Communication  
Thesis: Fashion magazines in the lives of Shanghai’s female college students: Psychological and sociological motives for uses and gratifications

Joshua Thomas Lizer  
**Dike**
B.S., Iowa State University  
Department: Veterinary Microbiology and Preventive Medicine  
Major: Veterinary Microbiology  
Thesis: Development of a conventional pig model for *Clostridium difficile* infection and associated disease in neonatal pigs
Wyndolyn M. A. Ludwikowski  
Muleshoe, Tex.
B.S., Iowa State University  
Department: Psychology  
Major: Psychology  
Thesis: Covariates of sex differences in RIASEC interests and confidence scores

Yating Ma  
Shanghai, China
B.E., Shanghai University;  
M.S., Fudan University  
Department: Food Science and Human Nutrition  
Major: Food Science and Technology  
Thesis: Deactivation of soybean agglutinin by enzyme hydrolysis and identification of active peptides from soy proteins

Sali Salah Mahgoub  
Ames
B.S., Iowa State University  
Department: Interdisciplinary Graduate Studies  
Major: Interdisciplinary Graduate Studies (International Development Studies)

Emily Edeker Malloy  
Ankeny
B.A., Central College  
Department: Human Development and Family Studies  
Major: Human Development and Family Studies  
Thesis: Adolescent mother’s reported global happiness as it relates to adolescent father involvement

Justin L. Mardorf  
Monticello
B.S., Iowa State University  
Department: Agronomy  
Major: Plant Breeding  
Thesis: Agronomic and seed traits of soybean lines with the Rag1 gene for aphid resistance

Brandie Lee Martin  
Polk City
B.A., Iowa State University  
Department: Journalism and Mass Communication  
Major: Journalism and Mass Communication  
Thesis: Mobile phones and rural livelihoods: An exploration of mobile phone diffusion, uses, and perceived impacts of uses among small- to medium-size farm holders in Kamuli District, Uganda

Annette Sarah McGuire  
Algona
B.S., Iowa State University  
Department: Food Science and Human Nutrition  
Major: Nutritional Sciences  
Thesis: Utility of the SenseWear Pro 3 armband monitor and the Weight Management System for evaluating energy balance in adults

Nancy M. Minyard  
Pendleton, Ky.
B.S., Wisconsin State University;  
M.S., Iowa State University  
Department: Electrical and Computer Engineering  
Majors: Information Assurance and Computer Engineering

Zafirah Mohd Nor  
Bemban, Malaysia
B.S., University Putra Malaysia  
Department: Apparel, Educational Studies and Hospitality Management  
Major: Foodservice and Lodging Management  
Thesis: Hospital foodservice directors identify the important aspects when implementing room service in hospital foodservice

Kedar Suresh Nadkarni  
Mumbai, India
B.E., University of Mumbai;  
M.Tech., Indian Institute of Technology - Bombay  
Department: Mathematics  
Major: Mathematics

Harish B. Narayanappa  
Bangalore, India
B.E., Visveswaraiyah Technological University  
Department: Computer Science  
Major: Computer Science  
Thesis: Monitoring software using property-aware program sampling

Brett Matthew Nekolny  
Downers Grove, Ill.
B.S., Iowa State University  
Department: Mechanical Engineering  
Majors: Human Computer Interaction and Mechanical Engineering  
Thesis: Contextual self-organizing maps for visual design space exploration

Cory Lee Nelson  
Cedar Rapids
B.S., Iowa State University  
Department: Electrical and Computer Engineering  
Major: Electrical Engineering  
Thesis: Reducing phase noise degradation due to vibration of crystal oscillators

Dr. John U. Thomson has served the livestock and companion animal industry with dedication and distinction for 42 years. Thomson grew up committed to caring for animals. He spent the first twenty years of his career working as a private veterinarian in Clearfield, Iowa, alongside his father, Dr. Vale U. Thomson.

Excited to take on a new challenge, Thomson became an educator of livestock farmers and veterinarians while working as an extension veterinarian at South Dakota State University starting in 1987. A few years later, he became a professor, head of the veterinary science department and director of the South Dakota Animal Disease Research and Diagnostic Lab (ADRDL) at South Dakota State. In 1997, Thomson moved back to Iowa, serving as a faculty member at Iowa State University's College of Veterinary Medicine. Two years later he became dean of the College of Veterinary Medicine at Mississippi State University. In 2004, he returned to Iowa, becoming the 14th dean of the College of Veterinary Medicine at Iowa State University.

Over the course of his career, Thomson has left a legacy of excellence while providing local, state, national and international leadership. His state and national leadership roles include service on various veterinary boards and initiating the National Veterinary Service Act, signed into law in 2003. He has been named “Veterinarian of the Year” in Iowa, Mississippi and South Dakota; and the governor of South Dakota declared June 13, 1997 “Dr. John U. Thomson Day.” Thomson is an Iowa Honorary Master Pork Producer. He also received the Outstanding Service Award from the ISU Veterinary Alumni Association. In 2009 he was the Howard Dunne Memorial Lecturer at the annual meeting of the American Association of Swine Veterinarians.

Today, Thomson continues to serve as dean of the College of Veterinary Medicine at Iowa State. He and his wife, Kay, live in Kelley, Iowa.

* Graduating Student
HONORARY DEGREE RECIPIENT, DOCTOR OF SCIENCE

Harold L. Brock

H
arold Brock was born in Clarksburg, West Virginia, in 1914. He apprenticed with Henry Ford at the Ford Trade and Apprentice School in Dearborn, Mich., beginning at age 15, and within a few years, he became Henry Ford's personal engineer.

In 1938, Ford committed to the design and production of the revolutionary Ford 9N tractor, which would employ inventor Harry Ferguson’s three-point hitch system. Ford selected 25-year-old Brock to take the 9N from concept to production. The Ford Model 9N came on the market in 1939 and revolutionized tractor design. Today, every tractor manufacturer in the world uses the three-point hitch system pioneered on the 9N, and many millions of tractors with the three-point system have been manufactured.

During World War II, Mr. Brock made significant contributions to the design and production of the M3 and M4 Sherman tank, and the Ford-Willys Jeep. He redesigned the front of the M3 tank with a casting that would deflect an anti-tank shell instead of allowing it to penetrate the tank body. He was fired by Ford in 1957 after a dispute over a transmission design, and he tells the story of his time at Ford Motor Company in his book, The Fords in My Past, published in 2000.

Mr. Brock joined the John Deere Waterloo Tractor Works in 1959. As Director of Tractor Research and later Manager of Product Engineering at the Waterloo Tractor Works, he headed the group that designed the Deere 4020 tractor and brought it into production in 1963. The 4020 has been called the most copied tractor in history, and the most innovative design since the Ford 9N.

After his retirement from Deere, Mr. Brock’s passion became the development of Hawkeye Community College in Waterloo. He was a founding member of the board of directors of Hawkeye and served as board chairman from 1965 to 1980 and again in 2000. In a tribute to his service, Hawkeye named its new union The Brock Student Center. In 2007, he received the National M. Dale Ensign Trustee Leadership Award from the Association of Community college Trustees.

In 1944, he became a founding member of the Society of Automotive Engineers (SAE), Mississippi Valley Section, and served as its president. He is a Fellow of the Society of Automotive Engineers and the American Society of Agricultural and Biological Engineers (ASABE), and in 2008 he received the Cyrus Hall McCormick-Jerome Increase Case Gold Medal from the ASABE. He is also active with his local Junior Achievement, the Grout Museum and Amera-Farm-USA Inc. He lives in Waterloo, and he has two daughters and a son, four granddaughters, and four great grandsons.
Jonathan Rich has more than 20 years of experience in the silicones industry, starting as a research chemist and progressing to CEO of the second-largest producer of silicones and silicone derivatives in the world. He was appointed president and CEO, and elected a director of Momentive Performance Materials Inc. in June 2007.

Dr. Rich began his career with GE in 1982 as a research chemist, and advanced through a series of management positions to become manager of operational excellence at GE Silicones, and technical director of GE Bayer Silicones in Germany. He joined Goodyear Tire and Rubber Company in 2000, serving as director of chemical R&D, president of Goodyear Chemical, and in 2002 was named president, North American Tire, and Chairman of the Board, Goodyear Dunlop Tires NA.

Dr. Rich has a B.S. degree in chemistry from Iowa State University, and a Ph.D. in chemistry from the University of Wisconsin. He has been published in numerous journals and publications and is an inventor on 26 U.S. patents. He serves as a director of Momentive Performance Materials Holdings Inc., the parent company of Momentive, is a member of the American Chemical Society, and serves as a director for several professional associations, including the Rubber Manufacturers Association. He also serves on Iowa State University’s Institute for Physical Research and Technology (IPRT) Industrial Advisory Board.

Dr. Rich has been married to Iowa State University graduate, the former Susan Lee McConkie, for 32 years, and they have two grown daughters.

*An official list of summer 2010 graduates will appear in the fall 2010 commencement program.*
The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2009-2010 Senior Class Council is comprised of 11 students who are dedicated to recognizing seniors for their many achievements.

This year's Senior Class Council has planned a number of programs for seniors including both Fall and Spring Senior Weeks, where seniors enjoyed special tours and free food on campus; the Senior Package, a gift set that included commemorative Iowa State glasses; and the Senior Sendoff, a year-end event for seniors at the new Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

Each year, the graduating class also selects a gift to donate to the University. Seniors had the option to vote on their choice near the end of the semester.

Finally, Senior Class Council always invites you and your families to return to the Iowa State Alumni Center as you are all now Alumni of Iowa State University!

For more information on SCC and SALC programs, please visit www.isusalc.org.
